WEEKLY SUMMARY AND STATISTICS

January 2, 1976

#### WHEAT AND FEED GRAIN MARKETS WEAK

Wheat and feed grain markets turned weak across the Nation during the week ended December 31. Light farm selling failed to stop the market decline as demand slowed with flour mills using up inventory and exporters showing little interest as new sales have been light for several weeks. Feeding continued at a steady pace but inventories were good at the close of the year.

Kansas City hard winter wheat declined 4 to 11 cents with losses both in futures basic price and in premiums paid for protein. Ordinary wheat dropped 4 cents at \$3.38 and 13 percent protein dropped 11 cents at \$3.77 per bushel. Chicago No. 2 soft red winter eased 1 cent lower at \$3.25 with movement by lake shipment to Buffalo flour mills taking the pressure off. Toledo soft white wheat dropped 2 cents at \$3.16 per bushel.

Portland wheat markets fell as dry areas received snow cover and soft white wheat dropped 4 cents at \$3.64 while hard winter ordinary protein fell 11 cents at \$3.64 and Dark Northern Spring 14 percent protein closed 5 cents lower at \$4.56 per bushel.

Minneapolis Dark Northern Spring wheat had only good flour mill buying to support the market and futures price basis drop lowered values 3 to 4 cents with ordinary protein at \$3.39 to \$3.41 and 14 percent protein at \$4.03 to \$4.05 per bushel. Medium milling quality hard amber durum traded unchanged to 10 cents lower at \$4.35 to \$4.45 per bushel with slow terminal and mill demand. Rye held at \$2.80 with good flour mill demand.

Yellow corn markets showed little change as light offerings met only fair buying interest. Chicago No. 2 yellow corn traded 1 cent lower to 1 cent higher at \$2.56 per bushel for hopper and box cars. Kansas City No. 2 white corn fell 10 cents at \$2.70 per bushel with buying interest practically absent from the market. Chicago white oats held at \$1.53 with good mill demand and terminal support.

Minneapolis best malting barley price fell 10 to 20 cents at \$3.00 to \$3.40 as brewing dropped to a seasonal low point. Feed barley fell 10 cents at \$2.05 to \$2.10 per bushel with little buying or selling interest.

Kansas City yellow sorghum closed unchanged at \$4.25 but trade continued thin and only export interest keeping the price unchanged. Chicago No. 1 yellow soybeans declined 7 cents at \$4.46 and Illinois crusher plant prices went 4 to 9 cents lower at \$4.42 to \$4.46 per bushel as light receipts failed to overcome the slow buying interest at year end. Minneapolis flaxseed fell 35 cents at \$5.50 per bushel with crusher demand absent from the market as most plants switched to crushing soybeans for the first half of January.

#### WHEAT AND FEED GRAIN MARKETS STRONG

Wheat and feed grain markets turned strong across the Nation during the week ended January 8. Tight farmer holding kept offerings on the light side and a moderate pickup in demand for milling, processing and for export contributed strength across the board. Light snow cover in the winter wheat area of the U.S. and Russia caused concern for wheat acreage in areas where temperatures dropped sharply at mid period. The cold weather increased feed requirements of farm animals.

Kansas City hard winter ordinary wheat advanced 20 cents at \$3.58 with 13 percent protein up 20 cents at \$4.00 per bushel. Flour mills and exporters competed for light offerings. Chicago soft red winter wheat moved 19 cents higher at \$3.44 in spite of slowed demand. Toledo soft white wheat traded 19 cents higher at \$3.35 per bushel.

Portland soft white wheat traded up 16 cents at \$3.80 with hard winter ordinary protein at \$3.80 and No. 1 dark northern spring 14 percent protein up 25 cents at \$4.81 per bushel.

Minneapolis dark northern spring wheat closed 19 cents higher with ordinary protein at \$3.58 to \$3.60 and 14 percent at \$4.22 to \$4.24 per bushel. Medium milling quality hard amber durum sold up 15-20 cents at \$4.55 to \$4.60 and rye closed 5 cents higher at \$2.85 per bushel.

Chicago No. 2 yellow corn rose 6-8 cents at \$2.62 to \$2.64 with offerings improved but still short of demand as processors and exporters needed corn in the nearby position. Kansas City white corn eased 5 cents lower at \$2.65 with trade slow as demand fell off.

Chicago No. 2 Oats went up 6 cents at \$1.59 with demand spotty and cash prices closely following futures market. Minneapolis best malting barley 70 percent or better plump unchanged at \$3.00 to \$3.40 with feed grade unchanged to 5 cents lower at \$2.05 per bushel. Los Angeles No. 2 western barley advanced 5 cents at \$2.81 to \$2.86 per bushel.

Kansas City sorghum traded 15 cents higher at \$4.40 per hundred pounds with prices following the corn market and exporters furnishing the best outlet. Texas High Plains sorghum traded 5-10 cents higher at \$4.30 per hundred pounds.

Chicago No. 1 yellow soybeans went up 20 cents at \$4.66 per bushel with processors and exporters competing for light offerings. Oil and meal values advanced supporting the cash bean market. Illinois crusher plant soybean prices ranged 18-20 cents higher at \$4.60 to \$4.66 per bushel. Minneapolis flaxseed traded 10 cents higher at \$5.60 per bushel.

### AGRICULTURE HIGHLIGHTS FOR WEEK OF DECEMBER 29 - JANUARY 4

curtailed cotton harvesting. Freezing temperatures occurred in California major citrus

AGRICULTURE HIGHLIGHTS:

Cold temperatures slowed small grain growth in Southern Great Plains and Southwest. Rain over much of the eastern half of Nation and snow with blizzard conditions in Southern Great Plains increased need for more care and feeding of livestock. Adverse weather conditions

areas.

SMALL GRAINS:

Cool weather restricted small grain growth throughout much of the South and Southwest. Only

Cold and rain limited grazing over much of the

limited grazing of small grain fields was available in most southern states.

Winter wheat conditions in Kansas ranged from poor to fair in western areas to good in the East. Wind blowing was minimal and cold weather limited greenbug activity. Snow and rain in Oklahoma was beneficial. Wheat was in fair to mostly good condition but cold temperatures slowed growth and greenbug activity. Wind in Panhandle counties cut wheat in some areas where ground cover is light. Texas wheat from Low Plains southward responded to recent moisture showing some improvement. However, cool temperatures restricted growth in many localities. Control measures were needed in low plains for greenbugs. Wheat made poor growth in High Plains and grazing is below normal.

Winter wheat was in mostly good condition in Illinois but only fair to good in Nebraska. Wheat stands varied considerably throughout the South and Southeast from fair to good. Washington wheat stands were in good shape despite some erosion. California small grains are stressed for moisture.

PASTURES AND LIVESTOCK:

South and East while drifting snow and blizzard conditions caused considerable stress to livestock in the mountain and Northern Plains states. Grazing corn and milo fields continued in Kansas along with early seeded wheat fields mainly in Oklahoma as cold weather stopped new growth. Rains from Texas low plains southward aided small grains and pastures, however; cold weather restricted growth in many areas. Grazing in High Plains is below normal. Supplemental feeding continued widespread across the Nation and condition of livestock is some areas is declining because of adverse weather and poor quality of hay.

#### Automatic Telephone Reporting Service

Up-to-the-minute grain market news is now available to producers and other industry members by dialing a number anytime of the day or night. The reports are not all the same, but are tailored to supply information to meet local needs and are updated one to three times daily. Some of the machines are sponsored by state or producer organizations or commercial concerns. The following directory lists 36 services in 21 states that are currently in operation.

#### WEEKLY SUMMARY For January 15, 1976

#### WHEAT AND FEED GRAINS STRONGER

Wheat and feed grain markets turned stronger across the Nation during the week ended January 15. Small increase in export demand and feeder interest coupled with light farm selling worked to push most prices higher compared with week ago levels.

Kansas City hard winter wheat responded to fair mill demand, improving export interest and light farm selling to post gains in the futures and in premiums paid for cash wheat. Hard winter ordinary went up 5 cents at \$3.63 with 13 percent protein at \$4.05 per bushel. Chicago soft red winter wheat closed 2 cents higher at \$3.46 and Toledo soft white wheat traded up 2 cents at \$3.37 per bushel.

Portland soft white wheat sold 7 cents higher at \$3.87 with hard winter ordinary protein up 15 cents at \$3.95 and No. 1 dark northern spring 14 percent protein up 7 cents at \$4.88 per bushel.

Minneapolis spring wheat traded unchanged to 5 cents higher with ordinary protein at \$3.61 to \$3.63 and 14 percent protein at \$4.25 to \$4.29 per bushel. Medium milling quality hard amber durum advanced 10 cents at \$4.65 to \$4.70 with receipts light and clearing easily. Rye went up 5 cents at \$2.90 with good mill demand.

CORN AND OATS:

Yellow corn demand improved with cold weather increasing feeder interest and some exporters started accumulating stocks to apply on future sales. Farm selling continued light. Chicago No. 2 yellow corn moved up 2-3 cents at \$2.65 to \$2.66 per bushel. White corn trade continued dull with the light demand satisfied by corn moving out of the upper midwest. Kansas City No. 2 milling quality white corn held unchanged at \$2.65 per bushel in light trade. Chicago No. 2 white oats traded 6 cents higher at \$1.65 per bushel with mills and terminals supporting the market.

BARLEY: Minneapolis best malting barley, 70 percent or better plump traded unchanged to 10 cents higher at \$3.10 to \$3.40 and feed grade barley moved 5 to 10 cents higher at \$2.10 to \$2.15 per bushel. Portland No. 2 western barley sold up 7 cents at \$2.45 per bushel with an export sale of 25,000 tons supporting the market.

SORGHUM AND OILSEEDS: Kansas City yellow sorghum picked up a little strength from higher cost corn, a light pickup in export and feeder demand and light offerings to close 3 cents higher at \$4.43 per hundred pounds. Texas High Plains sorghum closed 5 cents higher at \$4.35 per hundred pounds. Chicago No. 1 yellow soybeans advanced 6 cents at \$4.72 with oil and meal market strength coupled with fair export interest and light farmer selling working together to firm the market. Illinois crusher plant prices moved up 10-11 cents at \$4.71 to \$4.76 per bushel. Minneapolis flaxseed gained 40 cents at \$6.00 per bushel with practically no offerings at the farm level.

GRAINS: Closing prices, basic contracts No. 2 for future delivery

## AGRICULTURE HIGHLIGHTS

## FOR WEEK OF JANUARY 5-11

AGRICULTURE HIGHLIGHTS: Extremely cold temperatures over much of the Nation limited most farm activities to care and feeding of livestock. Rain and surplus soil moisture stopped harvest of remaining row crops in most Southeastern states. Condition of winter wheat and other fall seeded small grains declined in most areas as a result of subnormal temperatures. Cotton harvesting windup continued slow. Cold temperatures during the week caused only minimal damage to citrus and vegetable crops in California, Florida and Texas.

#### SMALL GRAINS:

in many areas.

Cold temperatures halted small grain growth throughout much of the Nation and caused condition of winter wheat to drop slightly

Winter wheat condition declined in Kansas and growth was at standstill. Minimum ground cover in many Western and Central areas of the state allowed some soil blowing but overall damage was light. Oklahoma wheat condition also dropped off as cold weather put all small grains in dormancy. Light cover and dry soils in the Panhandle and Northwest part of the state caused concern. Greenbugs were temporarily stopped but remain threat. Grazing remains light and limited. Wheat in Texas High and Low Plains furnished little grazing except on better irrigated stands. Cold weather slowed growth rates. Oats suffered light to moderate freeze damage in many localities from low plains southward.

Cold wet conditions slowed development of small grains in most Southeastern states. Condition of wheat stands continued mostly good to excellent in Illinois but generally ranged from only fair to good in most other states. Most winter wheat in Washington was in good condition but because of light snow cover stands are vulnerable to severe cold. Moisture is needed for California's stressed small grains.

PASTURES AND LIVESTOCK:

Cold rain and snow increased stress on livestock and required additional supplemental feeding throughout most of the Nation. Shrinkage and weight loss were noticeable in few states along with higher death loss of newborn livestock. In Texas declining pastures and parasites added to problem. Oats and winter wheat pastures were furnishing only light grazing in most areas of Kansas, Oklahoma and Texas as well as in other Southern States. Sub-zero temperatures and high wind chill factor in northern states required extra care in many areas. Hay and feed supplies are generally adequate in most areas.

OTHER CROPS:

Soybean wrapup was hampered by cold and wet weather, however, only small acreages remain for harvest.

COTTON:

Cold and in some areas wet fields stopped all cotton harvesting activity and growers waited for warmer weather before resuming. By January 11, cotton harvesting was virtually complete in all states except California, Mississippi, Oklahoma and Texas.

In Texas cotton harvesting reached 99 percent finished versus 96 percent year ago and an average 92 percent. Sub-freezing temperatures in high and low plains kept farmers from fields most of week. However, gins were able to catch up with backlogs and ricked cotton. Only scrapping operations remain in low plains and Edwards Plateau area. Cotton picking in Mississippi was limited for second consecutive week harvest was 97 percent complete compared with 94 percent last year and average 98 percent. Growers in Oklahoma need few nice days to reach windup stage. Excessive moisture conditions prevented completion of picking in Georgia.

Harvest was about complete in California where harvested fields have been shredded and disced. Cotton residual disposal was well advanced in Arizona. Cotton picking was about finished in Nevada Pahrump Valley.

WEEKLY SUMMARY For January 22, 1976

#### WHEAT AND FEED GRAIN MARKETS MOSTLY LOWER

HIGHLIGHTS:

Wheat and feed grain markets moved mostly lower across the Nation during the week ended January 22. Export interest declined for wheat and most feed grains as trading fell below

expected levels. The exception was barley and oats for shipment from the Pacific Coast where a fair movement occurred during the week. Traders had several crop reports to assimilate this week and this caused some fall off in interest as no clear direction emerged. Lack of moisture in the Western U.S. and in some foreign production areas contributed some stability. Farm selling of grain expanded but remained spotty and short of needs at some points.

WHEAT AND RYE:

Kansas City hard winter wheat declined 6 cents with ordinary protein at \$3.57 and 13 percent protein at \$3.99 per bushel. Flour mill grind continued heavy but export movement fell

below expected levels. Chicago No. 2 soft red winter wheat advanced 1 cent at \$3.47 with outbound movement good. Toledo soft white wheat fell 4 cents at \$3.33 per bushel.

Portland soft white wheat dropped 6 cents with the Japanese traders taking only half of the wheat they asked offers on the market closed at \$3.81 per bushel. Hard winter ordinary protein fell 7 cents at \$3.88 and dark northern spring eased 4 cents lower at \$3.19 per bushel with light farm selling limiting the decline.

Minneapolis dark northern spring ordinary protein wheat traded 9-11 cents lower at \$3.52 with 14 percent protein off 5-7 cents at \$4.20 to \$4.22. While medium milling quality hard amber durum wheat moved 5 cents lower to 5 cents higher at \$4.60 to \$4.75 per bushel. Rye dropped 5 cents at \$2.85 per bushel.

CORN AND OATS:

Yellow corn markets showed more stability than wheat or soybeans with neither the sharp upward or

downward moves shown in other grains the past few days. Farm selling remained light but export interest was dull. Feed demand remained good as most of the country had poor pastures and feed lots showed the greatest percentage fill since more than a year ago. Chicago No. 2 yellow corn eased 2-3 cents lower at \$2.62 to \$2.64 in box and hopper cars. Kansas City white corn moved up 8 cents at \$2.73 with practically no offerings and a fair demand. Chicago No. 2 oats closed 2 cents lower at \$1.63 with little local buying interest.

BARLEY:

Minneapolis best malting barley sold steady to up 5 cents at \$3.15 to \$3.40 and feed grade barley

traded unchanged to 10 cents higher at \$2.15 per bushel. Portland western barley moved 8 cents higher at \$2.53 with the market supported by a fairly good export demand.

SORGHUM AND OILSEEDS:

Kansas City yellow sorghum remained tied to the yellow corn market and declined 3 cents at \$4.40

per hundred pounds. Export interest remained constant but traders followed the Chicago March corn futures option price. Texas High Plain sorghum moved unchanged to 5 cents lower at \$4.30 to \$4.35 in dull trade. Weakness in soybean oil led beans lower and Chicago No. 1 yellow soybeans fell 6 cents at \$4.66 with Illinois crusher plant prices dropping 6-8 cents at \$4.63 to \$4.70 per bushel. Minneapolis flaxseed went up 25 cents at \$6.25 per bushel with terminal buyers competing with crusher plants for the light offerings.

#### WEEKLY SUMMARY

For January 29, 1976

#### WHEAT MIXED - FEED GRAINS MOSTLY LOWER

HIGHLIGHTS:

Wheat traded mixed and feed grain markets turned mostly lower across the Nation during the week ended January 29. Wheat and feed grain markets had moved sharply lower as traders assessed reports showing planting intentions and stocks of old crop grains. When export interest improved at mid week prices started a recovery which wen't through the closing day but most prices closed below week ago levels. Feeding interest fell off a little as weather moderated but milling and proceeding demand remained fairly good.

WHEAT AND RYE:

Kansas City winter wheat closed mixed with ordinary protein 3 cents lower at \$3.54 but 13 percent protein moved up 2 cents at \$4.01 per bushel with exporters and mills competing for supplies to blend with lower protein wheat. Chicago soft red winter wheat finished 3 cents lower at \$3.44 and Toledo soft white wheat closed down 3 cents at \$3.30 per bushel.

Portland soft white wheat recovered early week losses to close steady at \$3.81 with ordinary protein hard winter wheat 1 cents lower at \$3.87 but dark northern spring 14 percent protein moved up 1 cent at \$4.85 per bushel.

Minneapolis dark northern spirng wheat moved mixed with ordinary protein steady to 2 cents lower at \$3.50 to \$3.52 but 14 percent protein moved 8 to 10 cents higher at \$4.30 per bushel. Medium milling quality hard amber durum fell 10 cents at \$4.50 to \$4.65 per bushel. Rye closed 15 cents lower at \$2.70 per bushel.

CORN AND OATS:

Yellow corn markets traded in a narrower range than wheat and soybeans but closed mostly lower in spite of renewed export interest the last two days of the period. Chicago No. 2 yellow corn closed 4 to 6 cents lower at \$2.56-\$2.60 but the Kansas City market finished steady at \$2.58 per bushel. Kansas City white corn went down 15 cents at \$2.58 per bushel in extremely light trade. Chicago white oats moved down 2 cents at \$1.61 per bushel with demand spotty.

BARLFY: Minneapolis best malting barley traded steady to 5 cents lower at \$3.10 to \$3.40 and feed grade held at \$2.15 in extremely light trade. Portland western barley

closed steady at \$2.53 per bushel.

SORGHUM AND OILSEED: Kansas City sorghum fell 8 cents at \$4.32 per hundred pounds and Texas High Plains price held steady to 5 cents lower at \$4.30 with demand easier and offerings light. Los Angeles sorghum went down 6 cents at \$5.40 to \$5.44 with little interest for nearby shipment. Chicago No. 1 yellow soybeans dropped 6 cents at \$4.60 with Illinois crusher plant prices down 7-8 cents at \$4.55 to \$4.63 per bushel. Easiness in oil and meal markets depressed raw bean prices. Minneapolis flaxseed dropped 15 cents at \$6.10 per bushel.

GRAINS: Closing prices, basic contracts No. 2 for future delivery

#### WEEKLY SUMMARY

#### FOR FEBRUARY 5, 1976

#### WHEAT AND FEED GRAIN MARKETS STRONGER

HIGHLIGHTS: Wheat and feed grain markets turned generally stronger across the Nation during the week ended February 5. Dry conditions in the Russian wheat area coupled with a reduction in the western Europe potato crop kept buyers friendly toward new wheat and feed grain purchases. A late period break in the drought in western United States areas took the edge off the market advance as rain and snow fell over much of the dry areas. Farmer tight holding loosened at times and fair movements of wheat, corn, oats and soybeans occurred, mostly in the northern tier of midwest states.

WHEAT AND RYE: Kansas City hard winter wheat closed up 5 to 6 cents in spite of the Brazilian wheat tender going to Argentina this week. Heavy loadings at ports against old sales helped firm the market. Ordinary protein closed up 6 cents at \$3.60 with 13 percent up 5 cents at \$4.06 per bushel. Chicago soft red winter wheat went up 10 cents at \$3.54 and Toledo soft white wheat traded 6 cents higher at \$3.36 per bushel.

Portland soft white wheat went up 2 cents at \$3.83 with fair movement to India and hard red winter ordinary protein wheat sold 1 cent higher at \$3.88 and dark northern spring 14 percent protein held at \$4.85 per bushel. Minneapolis spring wheat traded mixed as mill and west coast export demand fell off. Dark northern spring ordinary protein held at \$3.50 to \$3.52, 14 percent protein went up 2 cents at \$4.32 but 15 percent protein fell 2 to 3 cents at \$4.52 to \$4.58 per bushel. Medium milling quality hard amber durum wheat was in good demand from all segments of the trade and traded steady to up 5 cents at \$4.55 to \$4.65 per bushel. Rye advanced 5 cents at \$2.75 per bushel as farm selling slowed.

CORN:
Yellow corn turned stronger as farm selling was very limited except to northern barge and unit train loading facilities and prices closed up 8 to 12 cents at Chicago at \$2.68 for box or hopper cars and Kansas City white corn went up 10 cents at \$2.68 reflecting light arrivals as demand continued slow.

OATS AND BARLFY: Chicago white oats held at \$1.61 but Minneapolis market went up 1 to 3 cents at \$1.65 to \$1.68 with good demand and increased offerings cleared readily. Minneapolis best malting barley fell 10 to 15 cents at \$3.00 to \$3.25 as Brewers' pulled back. Feed grade barley gained 10 cents at \$2.25 per bushel in extremely light trade.

SORGHUM AND OILSEFD: Kansas City yellow sorghum went 7 cents higher at \$4.39 per hundreds with the track Gulf bid supporting the market. The Texas High Plains market was dull with elevator offered grain up 5 cents at \$4.35 but with bids generally below this range. Chicago yellow soybeans closed 12 cents higher at \$4.72 per bushel as oil and meal futures markets rallied at the close. Illinois crusher plant prices moved 12 to 15 cents higher at \$4.67 to \$4.78 with processors replacing crush. Minneapolis flaxseed went up 20 cents at \$6.30 per bushel.

GRAINS: Closing prices, basic contracts No. 2 for future delivery

#### WEEKLY SUMMARY

#### FOR WEEK ENDED FEBRUARY 12

#### DROUGHT SPARKS MARKET ADVANCE

#### HIGHLIGHTS:

Drought extending from Central Iowa throught much of the hard winter wheat area of the mid and southwest sparked sharp advances for wheat markets which led most other grain upward. Fair farm selling tempered the advance at the close. Much of the dry California area received beneficial rains but the Sacramento Valley remain in need of moisture. Eastern Europe including most of the Russian hard winter wheat area received varying amounts of moisture.

#### WHEAT AND RYE:

Kansas City hard winter wheat cash and futures markets advanced sharply as the drought worsened and irreversable damage occurred in parts of the Southwest. Hard winter ordinary protein went up 33 cents at \$3.93 and 13 percent protein rose 34 cents at \$4.40 per bushel. Chicago soft red winter wheat traded 36 cents higher at \$3.90 and Toledo soft white wheat went up 37 cents at \$3.73 per bushel.

Portland soft white wheat advanced 31 cents at \$4.14 with hard winter ordinary protein up 32 cents at \$4.20 and dark northern spring 14 percent protein gained 28 cents at \$5.13 per bushel. Minneapolis dark northern spring wheat went up 23-27 cents with ordinary protein at \$3.73-3.77 and 14 percent protein at \$4.55-4.57. Medium milling quality hard amber durum went 20 cents higher at \$4.75-4.85 and No. 2 rye held at \$2.75 per bushel.

#### CORN:

Coarse grains borrowed strength from the sharply advancing wheat market and Chicago No. 2 yellow corn traded 4-5 cents higher at \$2.72-2.73. Kansas City white corn held at \$2.68 per

#### OATS AND BARLEY:

bushel in dull trade.

Chicago No. 2 oats traded 5 cents higher at \$1.66 with the market advancing in spite of slow buying interest. Minneapolis best malting barley rose 5-10 cents at \$3.05-3.35 per bushel with feed grade barley at \$2.30, up 5 cents. Portland No. 2 western barley gained 4 cents at \$2.56 per bushel.

#### SORGHUM AND OILSEED:

Kansas City yellow sorghum sold 13 cents higher at \$4.52 per hundred pounds with little local interest but the Gulf track export bid kept offerings cleaned up. Texas High Plains sorghum traded a little more actively and went up 5-10 cents at \$4.40-4.45 per hundred pounds. Soybean markets showed the least strength as the products moved mixed, oil traded higher while meal markets declined. Chicago No. 1 yellow soybeans sold 4 cents higher at \$4.76 with Illinois crusher plant prices 4-7 cents higher at \$4.74-4.82 per bushel. Minneapolis flaxseed jumped 20 cents higher at \$6.50 per bushel with good processor demand and light country selling.

#### 1/ Ports included in the general areas are:

#### **LAKES**

Chicago Area: Chicago and Milwaukee

Toledo Area: Toledo, Huron, OH, Erie, Pa. and Buffalo, N.Y. Saginaw Area: Saginaw, Carrollton and Zilwaukee, Mich.

#### **ATLANTIC**

North: Portland, Albany, and Philadelphia South: Baltimore, Norfolk, and North Charleston

#### **GULF**

Mississippi River: New Orleans, Destrehan, Port Allen, Myrtle Grove, Ama, and Reserve

East Gulf: Mobile and Pascagoula

North Texas Gulf: Beaumont, Port Arthur, Houston, and Galveston

South Texas Gulf: Corpus Christi and Brownsville – Includes some rail shipments to Mexico

#### **PACIFIC**

Columbia River: Portland, Kalama, Astoria, Longview, and Vancouver Puget Sound: Seattle and Tacoma

California: Long Beach, Stockton, San Francisco, and Sacramento

#### <u>2</u>/ Includes waterway shipments to Canada.

WHEAT: Inspections for export by classes, ports and areas

### WEEKLY SUMMARY

FOR WEEK ENDED ON FEBRUARY 19

### WHEAT LOWER, FEED GRAIN MIXED

### HIGHLIGHTS:

Wheat markets closed lower across the Nation while feed grain moved in a mixed price trend during the week ended February 19. Weather continued to dominate the wheat market as heavy rain clouds moved into and out of the dry areas of the winter wheat belt. Little actual moisture fell and the crop continues to deteriorate. Pastures suffered in the Southwest and in the California Sacramento Valley. Cattle moved into feedlots earlier than planned as pastures because too short graze. This increased feed requirements and in turn kept some feed grain on the up side of the market while a generally dull export trade caused downward pressure

### WHEAT AND OATS:

at most grain exchanges.

Kansas City hard winter wheat moved 3-4 cents lower with ordinary protein at \$3.90 and 13 percent protein at \$4.36 per bushel. Fair farm selling supplied the light buyer interest while the dull export trade kept exporters and merchandisers moving on both sides of the market, buying on downturns and taking profit on upturns. Chicago soft red winter wheat eased 1 cent at \$3.89 with stocks remaining about even. Toledo soft white wheat dipped 5 cents lower at \$3.68 and Portland soft white wheat closed 2 cents lower at \$4.12 per bushel and this market showed the greatest export sales during the week. Portland hard winter ordinary protein wheat fell 6 cents at \$4.14 and dark northern spring 14 percent protein dropped 7 cents at \$5.06 per bushel.

Minneapolis dark northern spring wheat traded 2-8 cents lower with ordinary protien at \$3.71 and 14 percent protein at \$4.49 while medium milling quality hard amber durum sold 5-10 cents lower at \$4.70-4.75 per bushel. Short rye offerings raised bids 10 cents at \$2.85 per bushel.

CORN:

Chicago No. 2 yellow corn dropped 3-4 cents at \$2.68-2.70 per bushel with stocks showing a net accumulation for the week as farmer selling loosened a little. The St. Louis yellow corn bid was steady to up 1 cent at \$2.68-2.70 per bushel. Kansas City white corn held at \$2.68 for milling quality but buying interest was light and sellers waited for higher prices.

OATS AND BARLEY: Chicago white oats held at \$1.66 per bushel. Minneapolis best malting barley moved steady to up 5 cents at \$3.10-3.35 while feed grade held at \$2.30 per bushel. Los Angeles western barley held steady to up 2 cents at \$2.86-2.90 per bushel.

### SORGHUM AND OILSEED:

Kansas City yellow sorghum moved down 2 cents at \$4.50 per hundred pounds closely following the export market. Texas High Plain sorghum moved unchanged to up 4 cents at \$4.44-4.45 per hundred pounds. Chicago yellow soybeans traded 4 cents higher at \$4.80 per bushel with strength in cash and futures soybean meal markets supporting values. Oil prices eased lower. Minneapolis flaxseed fell 10 cents at \$6.40 per bushel with dull buying interest depressing prices.

GRAINS: Closing prices, basic contracts No. 2 for future delivery

<sup>1/</sup> The quantity of grain inspected at U.S. ports for shipment to Canada is reduced by the amount of U.S. grain exported from Canadian ports as reported by the Canadian Grain Commission. It is assumed this residual amount of grain is held in Canada for later export or consumption.
2/ Includes 35,000 bu. of U.S. Barley shipped from stock stored in Canada. 3/ Includes 294,000 bu. of U.S. rye shipped from stock stored in Canada 4/ Includes 1,753,000 bu. of white corn.

### WEEKLY SUMMARY

### FOR WEEK ENDED ON FEBRUARY 26

### WHEAT AND FEED GRAIN MARKETS MOSTLY LOWER

HIGHLIGHTS:

Wheat and feed grain closed mostly lower across the Nation during the week ended February 26. Mid-period wheat futures market advances on reports of continued drought over western hard winter wheat areas failed to counter the sharp drop on Thursday which followed forecast of possible moisture over the wheat belt which set off a wave of profit taking and later waves of stop loss orders which set off a wave of profit taking and later waves of stop loss orders which continued the downward trend through the close. Fair increase in export business tempered the fall and helped limit the drop in feed grain prices.

WHEAT AND RYE:

Kansas City hard winter wheat closed 3 cents lower on ordinary protein at \$3.87 and 6 cents lower on 13 percent protein at \$4.30 per bushel. Soft wheat markets declined sharply as generally good growing condition continued over most of the area. Chicago soft red winter wheat fell 15 cents at \$3.74 per bushel. Toledo soft white wheat dropped 8 cents at \$3.60 per bushel. Portland soft white wheat closed 6 cents higher at \$4.18 with hard winter wheat ordinary protein up 6 cents at \$4.20 and dark northern spring 14 percent protein went up 3 cents at \$5.09 per bushel.

Minneapolis spring wheat interest picked up at the close as gulf export interest revived as barge shipment on the upper river system looked for an early opening as the first barge of the season arrived a month early at Kansas City. Dark northern spring ordinary protein closed steady at \$3.71 with 13 percent protein at \$4.21-4.23 and 14 percent unchanged to 1 cent lower at \$4.48-4.49 per bushel. Medium milling quality hard amber durum went up 5 cents at \$4.75 to \$4.80 per bushel and No. 2 rye gained 5 cents at \$2.90 per bushel.

CORN:

Corn tended to follow wheat but at the close improved export inquiry picked up the lows at most markets enough to offset futures market decline. Chicago No. 2 yellow corn closed 1 cent lower at \$2.67 to \$2.69 and Minneapolis went up 1 cent at \$2.58 with Kansas City steady at \$2.64 per bushel. Kansas City white corn advanced 4 cents at \$2.72 with light sales activity.

OATS AND BARLEY:

Chicago heavy oats dropped 5 cents at \$1.61 but Minneapolis market held steady to up 1 cent at \$1.65 to

\$1.67 per bushel.

Minneapolis best malting barley held at \$3.10-3.35 and feed grade barley steady at \$2.30 per bushel. Los Angeles western barley held at \$2.86-2.90 per bushel.

SORGHUM AND OILSEFD:

Kansas City sorghum closed unchanged at \$4.50 per hundred pounds supported by a steady to firm export market. Texas High Plains sorghum moved steady to down 4 cents at \$4.40-4.45 as cattle feeding operations showed a loss. Chicago No. 1 yellow soybeans finished down 10 cents at \$4.70 and Illinois crusher point prices dropped 10 cents at \$4.68-4.76 per bushel as soybean meal markets dropped around \$5.50 per ton at the close. Minneapolis flaxseed held at \$6.40 per bushel.

# AUTOMATIC TELEPHONE REPORTING SERVICE

Up-to-the-minute grain market news is now available to producers and other industry members by dialing a number anytime of the day or night. The reports are not all the same, but are tailored to supply information to meet local needs and are updated one to three times daily. Some of the machines are sponsored by state or producer organizations or commercial concerns. The following directory lists 36 services in 21 states that are currently in operation.

ARKANSAS LITTLE ROCK 800-482-9453 (WITHIN STATE ONLY) Soybeans only - October 1 Thru January 1

# WEEKLY SUMMARY

# FOR WEEK ENDED ON MARCH 4

# GRAIN PRICES MOSTLY HIGHER

# HIGHLIGHTS:

Grains traded mostly higher on the Nation markets during the week ended

Hard red winter wheat in Kansas City

March 4. Dry weather continued to depress prices as rain was predicted but did not occur until late in the period and trends were reversed on rumors of impending export sales. Farm selling remains limited with little activity to further attract selling of stored stocks.

## WHEAT AND RYE:

advanced 3 cents and ordinary quoted at \$3.90 with 13 percent protein at \$4.33 per bushel. Traders report selling of last years crop remains light although movement from farm bins to sub-terminal and terminals was active with most supplies being stored. Soft red winter wheat gained 10 cents in Chicago at \$3.86 per bushel with mills the main support in the market as terminal interest slowed. Soft white wheat at Toledo was up 5 cents at \$3.65 per bushel. Soft white wheat at Portland declined 20 cents at \$3.98 and hard red winter wheat was off 19 cents at \$4.01 per bushel with most exporters having adequate supplies on hand to meet commitments.

Demand in spring wheat picked up near the end of the period reflecting the opening of barge season this weekend. No. 1 dark northern spring wheat in Minneapolis held steady at \$3.71 for ordinary and 14 percent protein unchanged at \$4.48 to \$4.49 per bushel. No. 1 hard amber durum in Minneapolis was down 5 cents at \$4.70 to \$4.75 as demand slackened.

# CORN:

Corn markets advanced with light producers selling which pushed premiums higher. Traders were influenced by the seasonal expansion of formula feeding in South Central States. No. 2 yellow corn in Chicago advanced 1 to 4 cents at \$2.68 to \$2.73 while Kansas City gained 6 cents at \$2.70 and St. Louis up 4 to 5 cents at \$2.71 to \$2.73 per bushel. No. 2 white corn in Kansas City was 17 cents higher at \$2.89 with tight farm holding.

# OATS AND BARLEY:

No. 2 white oats in Chicago was up 3 cents at \$1.64 per bushel with good demand and spotty offerings. No. 3 or better malting barley in Minneapolis held steady with most offering being absorbed by mills. No. 3 feed barley gained 5 cents at \$2.35 per bushel with good demand in Duluth terminal market. No. 2 western barley in Portland declined 2 cents at \$2.57 with little interest for nearby supplies.

# SORGHUM AND OILSEED:

No. 2 yellow sorghum in Kansas City advanced 15 cents at \$4.65 per cwt with exporters competing with feedlots for the limited offerings in order to fill commitments. No. I yellow soybeans in Chicago gained 4 cents at \$4.74 while Illinois points were up 5 to 7 cents at \$4.75 to \$4.81 per bushel with movement from country points remaining spotty and most producers not under pressure to liquidate stocks in storage. No. 1 flaxseed in Minneapolis off 10 cents at \$6.30 per bushel with light offerings and poor demand.

# WEEKLY SUMMARY

FOR WEEK ENDED ON MARCH 11

# WHEAT, MOST FEED GRAINS WEAKEN

# HIGHLIGHTS:

Moisture over dry hard winter wheat areas stopped crop deterioration and slowed export weakened wheat markets during the

week ended March 11. Most feed grain markets followed wheat lower.

# WHEAT AND RYE:

Hard winter wheat weakness developed as export volume declined and moisture stopped crop deterioration in dry areas.

Kansas City hard winter wheat declined 11 to 12 cents with ordinary protein at \$3.79 and 13 percent protein at \$4.21 per bushel. Flour mills ran steady schedules and farmer selling expanded enough to keep mill and export buyers satisfied. Chicago soft red winter wheat declined 18 cents at \$3.68 in spite of light receipt as crop conditions continue near perfect in the soft red winter wheat area. Toledo soft white wheat dropped 12 cents at \$3.53 per bushel.

Portland soft white wheat went down 5 cents at \$3.93 with hard winter ordinary protein 3 cents lower at \$3.98 and 14 percent protein dark northern spring down 5 cents at \$4.87 per bushel. Portland grain movement was hampered by slow ship arrival for export.

Minneapolis barge season opened Monday, the earliest opening date on record. This improved demand but failed to stop prices from sliding lower. Dark northern spring wheat fell 11 cents with ordinary protein at \$3.60 and 14 percent protein at \$4.37 to \$4.38 and medium milling quality hard amber durum wheat held at \$4.70 to \$4.75 per bushel. Rye fell 5 to 10 cents at \$2.85 to \$2.90 as farmer selling expanded.

# CORN:

Yellow corn moved mixed as light receipts at Chicago held prices steady to up 2 cents at \$2.68 to \$2.75 while the St. Louis

market moved steady to 1 cent lower at \$2.71 to \$2.72 per bushel. Good export demand kept offerings moving down the river to gulf outlets. Kansas City white corn moved up 6 cents at \$2.95 on very light sales activity.

# OATS AND BARLEY:

Chicago white oats dropped 2 cents at \$1.62 while improved demand at Minneapolis raised bids 1 to 2 cents at \$1.66 to \$1.67

per bushel. Minneapolis best malting barley held at \$3.10 to \$3.35 while feed grade barley went up 5 cents at \$2.40 per bushel. Los Angeles western barley traded 5 cents higher at \$2.83 to \$2.86 per bushel.

### SORGHUM AND OILSEEDS:

Kansas City sorghum dropped 2 cents at \$4.63 as the market closely followed the gulf track bid. Texas high plain

sorghum went up 1 to 5 cents at \$4.53 per hundred pounds and Los Angeles price advanced 3 to 5 cents at \$5.61 to \$5.63 as feed lots needed supplies. Good processor margins kept the soybean market firm with Chicago No. 1 yellow soybeans down only 2 cents at \$4.72 per bushel and Illinois crusher plant prices 1 to 5 cents higher at \$4.80 to \$4.82 per bushel. Raw bean movement into export channels continued heavy. Minneapolis flaxseed dropped 10 cents at \$6.20 per bushel in slow trade.

GRAINS: Closing prices, basic contracts No. 2 for future delivery

Wheat shipped for storage in Canada is reported at time of shipment from Canadian ports.

#### Ports included in the general areas are:

#### **CANADIAN**

Seaway Ports: Baie Comeau, Port Cartier, Three Rivers, and Quebec City

#### **LAKES**

Chicago Area: Chicago and Milwaukee.
Toledo Area: Toledo, Huron, Oh, Erie, Pa. and Buffalo, N.Y.
Saginaw Area: Saginaw, Carrollton and Zilwaukee, Mich.

ATLANTIC North: Portland, Albany, and Philadelphia South: Baltimore, Norfolk, and Charleston

Mississippi River: New Orleans, Destrehan, Port Allen, Myrtle Grove, Ama, and Reserve

East Bulf: Mobile and Pascagoula

North Texas Gulf: Beaumont, Port Arthur, Houston, and Galveston South Texas Gulf: Corpus Christi and Brownsville – Includes some rail shipments to Mexico

#### **PACIFIC**

Columbia River: Portland, Kalama, Astoria, Longview, and Vancouver Puget Sound: Seattle and Tacoma

California: Long Beach, Stockton, San Francisco, and Sacramento

#### WEEKLY SUMMARY

#### FOR WEEK ENDED ON MARCH 18

#### HIGHLIGHTS:

Light moisture over dry winter wheat areas failed to overcome the persistant drought

and farmers returned to tight holding during the week ended March 18. Export buying improved with traders indicating possible sales of wheat and feed grains to Russia. Mill buying expanded as flour export sales picked up. Feed sales lagged as mostly open weather reduced animal feed requirements.

#### WHEAT AND RYE:

Kansas City hard winter wheat market found expanded flour mill buying and much

stronger export basis moving from 32 cents over the Kansas City may a week ago up to 36 cents over at the close. With the May futures price up 6 3/4 cents, this moved export bids track gulf.up 10 3/4 cents at \$4.22 3/4 per bushel. Kansas City ordinary protein wheat rail price advanced 8 cents at \$3.87 with 13 percent protein at \$4.29 per bushel. Chicago soft red winter wheat went up 6 cents at \$3.72 with a decline of stocks during the week. Toledo soft white wheat traded 5 cents higher at \$3.58 per bushel.

Portland soft white wheat moved up 3 cents at \$3.96 with export movement mostly against previous sale and with pipelines full for nearby shipment, little buying pressure was felt in the market. Hard winter ordinary protein wheat traded up 6 cents at \$4.04 with dark northern spring 14 percent protein 6 cents higher at \$4.93 per bushel.

Minneapolis dark northern spring wheat sold 4-7 cents higher with ordinary protein at \$3.67 and 14 percent protein at \$4.44 - \$4.45 per bushel. Minneapolis rye traded steady to 5 cents lower at \$2.85 with quality offerings lacking.

#### CORN:

Yellow corn markets moved mostly lower but with late week export buying improving

prices at the close. Chicago No. 2 yellow corn finished unchanged to 2 cents lower at \$2.68-\$2.73 per bushel and Minneapolis price advanced 1 cent at \$2.63 per bushel. A couple of export firms bought corn the last two trading days of the period and traders speculated that sales might be made to Russia for fair amounts of corn and wheat. Kansas City white corn traded in a wide range and finished steady at \$2.95 per bushel with export interest to Mexico firming the market.

#### OATS AND BARLEY:

Chicago heavy oats closed 3 cents lower at \$1.59 with buyer demand spotty and

cash prices closely follwing futures market trade lower. Minneapolis best malting barley held at \$3.10-\$3.35 and feed grade barley held at \$2.40 per bushel. Los Angeles western barley fell 1-4 cents at \$2.80-2.82 per bushel.

#### SORGHUM AND OILSEEDS:

Kansas City yellow sorghum went up 2 cents at \$4.65 per hundred pounds as export bids

moved higher. Texas High Plains sorghum dipped 3 cents lower at \$4.50 but Los Angeles market went up 3 cents at \$5.64-\$5.66 per hundred pounds. Chicago No. 1 yellow soybeans dropped 5 cents at \$4.67 per bushel with cash oil market fell more than enough to offset moderate strength in soybean meal. Illinois crusher plant prices fell 6 - 9 cents at \$4.71-\$4.76 per bushel. Minneapolis flaxseed held at \$6.20 per bushel and sunflower seed remained steady at \$10.85, Minneapolis and up 5 cents at \$10.90 per hundred pounds delivered at Duluth.

#### WEEKLY SUMMARY

#### FOR WEEK ENDED ON MARCH 25

#### WHEAT, MOST FEED GRAINS WEAKEN

#### HIGHLIGHTS:

Wheat and most feed grains moved at lower prices across the Nation during the week ended March 25. Trade reports indicate a large India wheat crop along with good carryover in the U.S.A. has raised world wheat stocks to the highest point in four years. The weaker monetary exchange rate in France heldped to move French wheat to Brazil during the week. Moisture improved crop prospects in dry areas of the Southwest U.S. and in parts of Russia. Farmers continued to hold old crop grain tightly but stored grain began to weigh on the market as new crop harvest approaches and space will be needed to handle the new grain. Moderating weather reduced animal requirements and greening pastures cut into feed usage.

#### WHEAT AND RYE:

Wheat markets showed the greatest weakness as export interest fell off sharply. Kansas City hard winter wheat dropped 17 cents at \$3.70 for ordinary protein and \$4.12 for 13 percent protein wheat. Chicago soft red winter went down 24 cents at \$3.48 and Toledo soft white wheat traded 16 cents lower at \$3.42 per bushel.

Portland soft white wheat dropped 30 cents at \$3.66 with hard winter ordinary down 21 cents at \$3.83 and dark northern spring 14 percent protein 18 cents lower at \$4.75 per bushel.

Minneapolis dark northern spring wheat closed 11 to 14 cents lower with ordinary protein off 11 cents at \$3.56 and 14 percent protein 12 to 13 cents lower at \$4.32 per bushel. Rye closed steady at \$2.85 per bushel.

#### **CORN:**

Yellow corn moved generally lower with some farmer selling in the upper Mississippi Valley but with other areas still holding tightly and export interest remained fairly good. Chicago No. 2 yellow corn declined 6 to 7 cents at \$2.62 to \$2.66 per bushel. Kansas City No. 2 white corn moved 4 cents higher at \$2.99 per bushel with good export interest to Mexico competing with processors for light offerings.

#### OATS AND BARLEY:

Chicago No. 2 oats fell 2 cents at \$1.57 per bushel. Minneapolis best malting barley sold unchanged to 5 cents lower at \$3.05 to \$3.35 per bushel while feed grade barley held at \$2.40 per bushel with a soft undertone at the close as buyers showed less interest in acquiring stocks. Los Angeles western barley moved unchanged to 1 cent lower at \$2.80 to \$2.81 per bushel.

#### SORGHUM AND OILSEEDS:

Kansas City yellow sorghum closed unchanged after trading lower at mid week. Prices closed steady at \$4.65 per hundred pounds with an improved export bid supporting the market. Chicago No. 1 yellow soybeans sold 5 cents lower at \$4.62 per bushel as crush margin fell when soybean meal weakened more than enough to offset moderate strength in soybean oil. Minneapolis flaxseed went up 15 cents at \$6.35 per bushel with good crusher demand.

# WHEAT - FEED GRAINS LOWER

HIGHLIGHTS: Wheat and Feed grain markets moved downward across the Nation during the week ended April 1. Flour mills generally had enough wheat stocks to carry into new crop position and new export business was extremely light and confined generally to regular users. New crop wheat condition unchanged. Feed grains found narrow outlets as open weather reduced animal needs and greening pastures furnished increasing amounts of graze. Old crop wheat and feed grain stocks are weighing against values as new crop harvest approaches in Western areas.

WHEAT AND RYE:

Kansas City hard winter wheat traded lower with ordinary protein down 8 cents at \$3.62 and 13 percent protein fell 5 cents at \$4.06 per bushel. Flour mill demand eased with mills stock generally ample to carry into new crop and with export business confined to small regular outlets. Chicago soft red winter wheat moved 10 cents lower at \$3.38 and Toledo soft white wheat also down 10 cents at \$3.32 per bushel.

Portland soft white wheat held unchanged at \$3.66 but hard winter ordinary protein dropped 5 cents at \$3.78 and dark northern spring 14 percent protein went down 11 cents at \$4.64 per bushel.

Minneapolis dark northern spring wheat declined 9 to 13 cents with ordinary protein down 9 cents at \$3.47 and 14 percent protein 9 to 10 cents lower at \$4.22 to \$4.23 per bushel. Hard amber durum, medium milling quality fell 10 cents at \$4.45 to \$4.55 while No. 2 rye held steady at \$2.85 per bushel.

Yellow corn markets eased lower as open weather reduced animal requirements and export interest fell off.
Chicago No. 2 yellow corn eased 1 to 2 cents lower at \$2.60 to \$2.67 and Kansas City white corn held at \$2.99 per bushel in slow trade.

OATS AND BARIFY: Chicago heavy oats fell 7 cents at \$1.50 per bushel.

Minneapolis best malting barley unchanged to 5 cents lower at \$3.00 while feed grade barley held at \$2.40 per bushel. Los Angeles western barley traded 2 to 4 cents lower at \$2.76 to \$2.79.

SORGHUM AND OILSEDS: Kansas City yellow sorhgum declined 10 cents at \$4.55 per hundred pounds as feeder interest fell off and export bids dropped. Los Angeles sorghum dropped 4 to 6 cents at \$5.58 to \$5.62 per hundred pounds. Chicago No. 1 yellow soybeans eased 2 cents lower at \$4.60 and Illinois crusher plant price fell 4 cents at \$4.63 to \$4.67 as crush margin narrowed when oil and meal markets closed lower. Minneapolis flax went up 5 cents at \$6.40 per bushel.

GRAINS: Closing prices, basic contracts No. 2 for future delivery

# WEEKLY SUMMARY

# FOR WEEK ENDED APRIL 8, 1976

# GRAIN PRICES MOSTLY HIGHER

# HIGHLIGHTS:

Grains traded mostly higher across the Nation's markets during the week ended April 8.

Tight producers holding was the major influence in prices moving to higher levels with much of the gain attributed to the high protein wheat which is in short supply and tight hands.

# WHEAT AND RYE:

Hard winter wheat advanced in most areas reflecting the limited supplies and the strong holding by producers. Traders indicated that about twenty five percent of last years crop remains in the hands of producers. No. 1 hard red winter wheat ordinary protein in Kansas City gained 6 cents at \$3.68 while Portland was up 11 cents at \$3.77 per bushel. No. 1 soft red winter wheat in Chicago advanced 4 cents at \$3.42 and St. Louis quoted at \$3.35 to \$3.39 which is 4 to 6 cents over a week ago. No. 2 soft white wheat in Toledo gained 4 cents at \$3.36 and in Portland avanced 11 cents at \$3.77 per bushel.

No. 1 dark northern spring wheat ordinary protein in Minneapolis was up 10 cents at \$3.57 and 14 percent protein advanced 9 cents at \$4.31 to \$4.32 per bushel with good mill demand. Movement by barge was slow due to high waters on the river. Hard amber durum wheat medium milling held steady at \$4.45 to \$4.55 per bushel with a weaker undertone reflecting the slow terminal usage. No. 2 rye in Minneapolis held steady at \$2.85 per bushel with little buyer or seller interest.

# CORN:

No. 2 yellow corn in Chicago was up 5 to 6 cents at \$2.65 to \$2.71 per bushel with country sales limited and buyers aggressively seeking supplies to fill March commitments. Concern is growing over this years' planting with some producers expected to switch from corn to soybeans. No. 2 white corn in Kansas City was off 9 cents at \$2.90 per bushel with light offerings and little demand for nearby supplies.

# OATS AND BARLEY:

No. 2 heavy oats in Chicago gained 7 cents at \$1.57 and Minneapolis up 1 to 2 cents at \$1.60 to \$1.61 per bushel with reduced country selling off-setting the slow mill demand. No. 3 or better malting barley in Minneapolis held steady at \$3.00 to \$3.35 while No. 2 western barley in Stockton gained 3 cents at \$2.76 to \$2.78 per bushel. Traders report demand firmed while country selling slowed.

# SORGHUM AND OILSEEDS:

No. 2 yellow sorghum in Kansas was unchanged at \$4.55 per cwt. with domestic usage at a standstill due to the present price relationship with corn. Traders report all seeding completed in the Rio Grand Valley of Texas. No. 1 yellow soybeans in Chicago advanced 9 cents at \$4.69 and Illinois points gained 8 to 16 cents at \$4.71 to \$4.80 per bushel with increased crusher demand while farm holding was tight. No. I flaxseed held steady in Minneapolis and quoted at \$6.40 per bushel with light offerings.

#### AUTOMATIC TELEPHONE REPORTING SERVICE

Up-to-the-minute grain market news is now available to producers and other industry members by dialing a number anytime of the day or night. The reports are not all the same, but are tailored to supply information to meet local needs and are updated one to three times daily. Some of the machines are sponsored by state or producer organizations or commercial concerns. The following directory lists 35 services in 21 states that are currently in operation.

#### WEEKLY SUMMARY

#### GRAIN PRICES MOSTLY HIGHER

HIGHLIGHTS:

Grains traded mostly higher across the Nation's market during the week ended April 15. Weather news early in the week moved prices lower with the prospects of record spring crop planting. Near the end of the period prices advanced with farmers busy in the field and showing little interest in selling last years crop. River movement to the Gulf slowed reflecting the closing of the large lock at Alton, Illinois making it necessary to use the smaller lock which backed barges up and closed some river terminals. Planting intentions reported by the USDA, Crop Reporting Board indicated feed grain acreage (corn, sorghum, oats and barley) at 126.6 million acres up nearly 3 percent from last year.

WHEAT AND RYE:

Hard red winter wheat advanced in most areas with mills and exporters competing for the light offerings reflecting the tight holding by producers. Traders expect this years crop to have higher protein contents due to the lack of moisture over the High Plains Area. Hard winter wheat harvest is expected to get underway in Southern Texas during the last week in April, with Oklahoma area reporting 70 percent of the wheat jointed and 20 percent in Kansas. No. 1 hard red winter wheat in Kansas City was up 3 cents for ordinary at \$2.71 and Portland gaining 5 cents at \$3.94 per bushel. No.2 soft red winter wheat in Chicago advanced 4 cents at \$3.46 and St. Louis up 5 cents at \$3.40 to \$3.44 per bushel. No. 2 soft white wheat was off 1 cent in Toledo at \$3.35 and in Portland advanced 4 cents at \$3.81 per bushel.

No. 1 dark northern spring wheat ordinary protein in Minneapolis unchanged at \$3.57 while 14 percent gained 3 to 4 cents at \$4.54 to \$4.60 per bushel. No. 1 hard amber durum held steady in Minneapolis to \$4.60 per bushel. No. 1 hard amber durum held steady in Minneapolis at \$4.45 to \$4.55 per bushel. The planting intention as of April 1 for durum wheat was down 2 percent from last year at 4.7 million acreas and spring wheat up 17 percent over last year at 16.4 million acreas. No. 2 rye in Minneapolis up 5 cents at \$2.90 per bushel with increased mill demand although farm selling was at a standstill.

Yellow corn market traded in a mixed trend with Midwest weather conditions almost ideal for field work and farmers preparing ground for this year's crops. Traders report substantial amounts of corn already planted. Corn planting intention for April 1 was at \$82.7 million acres which is 6 percent above last year. No. 2 yellow corn in Chicago was 1 cent higher to 1 cent lower at \$2.66 to \$2.70 and St. Louis steady at \$2.67 per bushel. No. 2 white corn in Kansas City was off 5 cents at \$2.85 per bushel with light offerings and little demand.

OATS AND BARLFY:

No. 2 heavy oats in Minneapolis advanced 10 cents at \$1.70 per bushel with very strong demand. No. 3 or better malting barley in Minneapolis held steady at \$3.00 to \$3.35 and No. 2 western barley in Portland down 2 cents at \$2.42 per bushel with users continuing to hold mainly to nearby requirements and avoiding a definite position.

SORGHUM AND OILSFEDS:

No. 2 yellow sorghum in Kansas City off 4 cents at \$4.51 per cwt with light offerings and poor export demand.

Sorghum planting intentions acreage for April 1 of 17.9 million acreas is 2 percent below 1975 acreage, and soybean acreage at 49.3 million acres down 10 percent from the 1975 crop. No. 1 yellow soybeans in Chicago advanced 9 cents at \$4.78 and Illinois crushers at \$4.73 to \$4.84 which is 2 to 4 cents over last week with increased processor demand. Rail movement from interior points to Gulf Ports increased due to breakdown at Alton lock which hampered barge movement from the upper Mississippi River.

#### 1/ Ports included in the general areas are:

#### **LAKES**

Chicago Area: Chicago and Milwaukee

Toledo Area: Toledo, Huron, OH, Erie, Pa. and Buffalo, N.Y. Saginaw Area: Saginaw, Carrollton and Zilwaukee, Mich.

#### **ATLANTIC**

North: Portland, Albany, and Philadelphia

South: Baltimore, Norfolk, and North Charleston

#### **GULF**

Mississippi River: New Orleans, Destrehan, Port Allen, Myrtle Grove, Ama, and Reserve

East Gulf: Mobile and Pascagoula

North Texas Gulf: Beaumont, Port Arthur, Houston, and Galveston

South Texas Gulf: Corpus Christi and Brownsville – Includes some rail shipments to Mexico

#### **PACIFIC**

Columbia River: Portland, Kalama, Astoria, Longview, and Vancouver Puget Sound: Seattle and Tacoma

California: Long Beach, Stockton, San Francisco, and Sacramento

#### Includes waterway shipments to Canada.

WHEAT: Inspections for export by classes, ports and areas

#### March 1976

#### **TERMINOLOGY**

APPLICATION:

Terms listed on this page are applicable to all commodities reported by Grain Market News offices. Local terms indicating conditions of sale should be used in Market News reports only when absolutely essential. Definition of product, georgraphic area, and basis of sale should be specific.

#### GRAIN MARKET NEWS TERMS:

THE FOLLOWING TERMS SHALL HAVE THE MEANING SPECIFIED ON THIS PAGE.

MARKET: A TERM WITH SEVERAL MEANINGS;

A GEOGRAPHIC LOCATION WHERE A COMMODITY IS TRADED.

THE PRICE, OR PRICE LEVEL, AT WHICH A COMMODITY IS TRADED.

TO SELL.

MARKET ACTIVITY
THE PACE AT WHICH SALES ARE BEING MADE.
ACTIVE......AVAILABLE SUPPLIES (OFFERINGS) ARE READILY CLEARING THE MARKET.
MODERATE....AVAILABLE SUPPLIES (OFFERINGS) ARE CLEARING THE MARKET AT A
REASONABLE RATE.
SLOW......AVAILABLE SUPPLIES (OFFERINGS) ARE NOT READILY CLEARING THE MARKET.
INACTIVE....SALES ARE INTERMITTENT WITH FEW BUYERS OR SELLERS.

PRICE TREND

THE DIRECTION IN WHICH PRICES ARE MOVING IN RELATION TO TRADING IN THE PREVIOUS REPORTING PERIOD(S).

HIGHER......THE MAJORITY OF SALES ARE AT PRICES MEASURABLY HIGHER THAN IN THE PREVIOUS TRADING SESSION.

FIRM......PRICES ARE TENDING HIGHER, BUT NOT MEASURABLY SO.

STEADY.....PRICES ARE UNCHANGED FROM PREVIOUS TRADING SESSION.

PRICES ARE TENDING LOWER, BUT NOT MEASURABLY SO.

LOWER.....PRICES FOR MOST SALES ARE MEASURABLY LOWER THAN THE PREVIOUS TRADING SESSION.

SUPPLY/OFFERING THE QUANTITY OF A PARTICULAR ITEM AVAILABLE FOR CURRENT TRADING.
HEAVY......THE VOLUME OF SUPPLIES IS ABOVE AVERAGE FOR THE MARKET BEING REPORTED.
MODERATE.....THE VOLUME OF SUPPLIES IS AVERAGE FOR THE MARKET BEING REPORTED.
LIGHT......THE VOLUME OF SUPPLIES IS BELOW AVERAGE FOR THE MARKET BEING REPORTED.

DEMAND

The desire to possess a commodity coupled with the willingness and ability to pay.

Very good...Offerings or supplies are rapidly absored.

Good....Firm confindence on the part of buyers that general market conditions are good. Trading is more active than normal.

Moderate...Average buyer interest and trading.

Light....Demand is below average.

Very Light...Few buyers are interested in trading.

MOSTLY THE MAJORITY OF SALES OR VOLUME.

<u>UNDERTONE</u> SITUATION OR SENSE OF DIRECTION IN AN UNSETTLED MARKET SITUATION

#### NOTICE

CIRCULARIZATION NOTICE WAS INCLUDED IN THE GRAIN MARKET NEWS, VOLUME 24, Number 14, dated April 2, 1976 with a form to be returned to this office. If no reply is received by April 30, 1976 we shall assume that you no longer have need for the report and your name will be removed from the mailing list. If this form has already been returned please disregard this notice.

#### WFFKLY SUMMARY

#### WHEAT MARKETS WEAK - FEED GRAIN MIXED

HIGHLIGHTS:

Wheat markets fell under dual pressure of improved new crop prospects and slowed export demand during the week ended April 22. Feed grain moved mixed as farmers were busy preparing seedbeds and planting raw crops and moved little feed grain to market. Soybean movement continued good in southern areas where farmers awaited rain before resuming

WHEAT AND RYE:

field operations.

Hard red winter wheat markets declined sharply as rain fell over much of the dry areas and new crop harvest neared in early fields in Texas. Export movement fell off further depressing the market. Increasing competition from foreign grain cut into potential sales with U.S. grain ranging about 8 cents per bushel over some competing area offerings. Kansas City hard winter wheat dropped 8 cents for ordinary protein at \$3.63 and 13 percent protein fell 7 cents at \$4.10 per bushel. Chicago soft red winter wheat declined 10 cents at \$3.36 per bushel. Toledo soft white wheat fell 9 cents at \$3.16 per bushel.

Minneapolis spring wheat dropped shaprly with planting intentions up and advancing well in northern states. Dark northern spring ordinary protein traded 11 cents lower at \$3.46 with 14 percent down 9 cents at \$4.26 per bushel. Medium milling quality hard amber durum fell 5 cents at \$4.40 to \$4.50 in spite of light offerings as demand fell off. Minneapolis rye held at \$2.90 per bushel.

Portland soft white wheat went down 6 cents at \$3.75 as light farm selling cushioned the fall. Hard winter ordinary protein dropped 11 cents at \$3.83 and 14 percent protein dark northern spring wheat fell 23 cents at \$4.65 per bushel.

CORN:

Corn markets showed strength as busy farmers failed to offer much grain for sale and fair processor feeding and export demand was not filled. Chicago yellow corn closed up 1 cent at \$2.67 to \$2.71 with a steady basis and a higher May futures option close. Kansas City No. 2 white corn moved up 5 cents at \$2.90 as exporters covered prior sales.

OATS AND BARLEY:

Oats and barley markets turned higher as farmer offerings turned scarce and light demand went unsatisfied. Chicago heavy oats traded up 2 cents at \$1.58 per bushel. Minneapolis best malting barley held at \$3.00 to \$3.35 and Los Angeles western barley went up 12 to 13 cents at \$2.71 to \$2.74 per bushel.

Kansas City sorghum closed down 13 cents at \$4.30 per hundred pounds as export demand fell off and SORGHUM AND OILSEEDS: feeder interest eased sharply as weather warmed and pastures greened. Offerings remained light. Chicago soybeans closed steady at \$4.78 per bushel with oil market easier and meal a little firmer. Illinois crusher plant prices closed mixed 1 cent lower to up 4 cents at \$4.77 to \$4.83 per bushel. Minneapolis flaxseed held up \$6.40 per bushel.

GRAINS: Clasing prices, basic contracts No. 2 for future delivery

#### TRENDS IN FOREIGN TRADE IN FEED GRAINS IN PERIOD AUGUST 1-NOVEMBER 30, 1975

IMPORTS:

Imports of feed grains in period were about 2,253,000 metric tons or about two percent higher than in the same period a year ago. Imports from non-EC member countries were 1,896,000 metric tons or about two percent below a year ago. These imports can be broken down as follows:

#### AUGUST 1 - NOVEMBER 30

1 1		1974		!	1975	
Type of FEED GRAIN IMPORT	Non-EC	EC	TOTAL	Non-EC	EC	TOTAL
		In	METRIC TONS		<u> </u>	
CORN:	1,421	171		1,409	205	1,614
Sorghum:	487	4	491	456	10	466
BARLEY:	-	90	90	-	141	141
OTHERS:	28	7	35	31	1	32
TOTAL:	1,936	272	2,208	1,896	357	2,253

REEXPORTS:

Reexports of imported feed grains were rather heavy in that same period as in illustrated in the following breakdown:

#### AUGUST 1 - NOVEMBER 30

	1	1974		1	1975	
Type of Feed Grain Reexport	Non-EC	EC	TOTAL	Non-EC	EC	TOTAL
		II	N METRIC TON	s		
CORN	: 568	1	569	656	3	659
Sorghums	: 211	-	211	248	-	248
BARLEY	-	8	8	2	64	66
OTHERS	9	-	9	7	-	7
TOTAL	: 788	9	797	913	67	980

Reexports from the Netherlands went mainly to the United Kingdom. (469.000 MT. in 1975) and West Germany (316,000 MT. in 1975.)

#### WEEKLY SUMMARY

#### FOR WEEK ENDED APRIL 29

#### WHEAT WEAK - FEED GRAIN MIXED

#### HIGHLIGHTS:

Wheat traded in a sharply weaker trend across the Nation during the week ended April 29. improvement coupled with reduced export sales worked to drop wheat values sharply. Corn markets closed stronger after exporters sold Russia over three million tons to be shipped partly out of old crop supplies. The balance of the feed grains looked generally weak and the soybean crush margin narrowed when oil values dropped more than enough to offset the small soybean meal price advance.

WHEAT AND RYE: Kansas City hard winter wheat went down with crop prospects improved and harvest nearing in early fields in Texas. Ordinary protein closed 17 cents lower at \$3.46 and 13 percent protein went down 29 cents at \$3.81 per bushel. Traders expected stronger protein from the new crop because of recent dryness over large areas.

Chicago soft red winter wheat declined 18 cents at \$3.18 and Toledo soft white wheat closed 16 cents lower at \$3.00 per bushel. Portland soft white wheat dropped 16 cents at \$3.59 with hard winter ordinary protein wheat 24 cents lower at \$3.59 and dark northern spring 14 percent protein off 13 cents at \$4.52 per bushel.

Minneapolis dark northern spring wheat fell in spite of reduced farm selling and ordinary protein closed 15 cents lower at \$3.31 with 14 percent protein 16 to 18 cents lower at \$4.08 to \$4.10 per bushel. Medium milling quality hard amber durum fell 30 cents at \$4.10 to \$4.20 as moderate offerings failed to find ready buyers. Minneapolis rye held steady at \$2.90 all week.

CORN: Corn markets moved higher in spite of good stocks and high production new crop planting figures. Exporters found good outlets to regular customers and Russia bought over 3 million tons to be delivered partly from old crop stocks and partly after new crop becomes available. Chicago No. 2 yellow corn closed 1 cent higher at \$2.68 to \$2.72 per bushel. Kansas City white corn traded 9 cents higher at \$2.99 per bushel as exporters

covered recent sales to Mexico.

Chicago heavy oats dropped 7 cents at \$1.51 in OATS AND BARLEY: spite of advancing futures market as offerings direct to users kept local demand slow. Minneapolis barley markets traded unchanged with best malting 70 percent or better plump steady at \$3.00 to \$3.35 and feed barley at \$2.40 per bushel. Portland No. 2 western barley traded up 6 cents at \$2.49 with improved export interest competing with feeders for offerings.

Kansas City yellow sorghum went down 2 cents at \$4.36 SORGHUM AND OILSEEDS: per hundred pounds as export interest dried up. Texas High Plains market fell 3 cents at \$4.43 to \$4.47 and the Los Angeles market dropped 4 to 5 cents at \$5.51 to \$5.56 per hundred pounds. Narrowing crush margins offset fair domestic and export demand for soybeans and meal and Chicago No. 1 yellow soybeans declined 7 cents at \$4.71 and Illinois processors dropped prices 1 to 4 cents at \$4.73 to \$4.82 per bushel. Minneapolis flaxseed held at \$6.40 per bushel.

GRAINS: Closing prices, basic contracts No. 2 for future delivery

#### REVISIONS OF THE U.S. STANDARDS FOR WHEAT

A REVISION OF THE UNITED STATES STANDARDS FOR WHEAT WAS PROPOSED BY THE UNITED STATES DEPARTMENT OF AGRICULTURE (USDA).

One proposed change would allow a newly developed purple-colored wheat to be designated as "unclassed wheat" a classification not available in the current U.S. wheat standards.

RED DURUM WHEAT WOULD ALSO BE DESIGNATED AS "UNCLASSED WHEAT" UNDER THE REVISION, BECAUSE RED DURUM IS NO LONGER GROWN COMMERCIALLY IN THE U.S.

OTHER CHANGES INCLUDED IN THE PROPOSED REVISION WOULD:

- ---- Modify inspection procedures so that the amount of heat-damaged kernels, damaged kernels (total), and foreign material would be determined on the basis of a wheat sample free from dockage and shrunken and broken kernels:
- ---- Delete the three subclasses of hard red winter wheat. Retaining only the class designation:
- ---- Adjust the limit for heat-damaged kernels in the U.S., No. 1 grade from 0.1 to 0.2 percent:
- - - Delete the Special GRADE "HEAVY WHEAT".
- --- REQUIRE THAT THE GRADE CERTIFICATE LIST PERCENTAGES OF WESTERN WHITE WHEAT, UNCLASSED WHEAT, AND MIXED WHEAT IN THE "REMARKS" SECTION:
- ---- REQUIRE WHEAT CONTAINING MORE THAN 0.1 PERCENT ERGOT TO BE GRADED AS "ERGOTY WHEAT" AND,
- ---- ELIMINATE THE SPECIAL GRADE "FOUGH WHEAT."

THE AMS OFFICIALS SAID THAT THE PROPOSED CHANGES ARE NEEDED TO BRING THE U.S. WHEAT STANDARDS IN LINE WITH CURRENT PRODUCTION AND MARKETING PRACTICES.

THE PROPOSED REVISION IS SCHEDULED TO BE PUBLISHED IN THE APRIL 27 FEDERAL REGISTER. COMMENTS CAN BE SUBMITTED IN DUPLICATE TO THE HEARING CLERK, ROOM 112-A, U.S.D.A. WASHINGTON, D.C., 20250 UNTIL May 27.

Copies of the proposed change and the current U.S. wheat standards may be obtained from the Grain Division, AMS, USDA, Washington, D.C., 20250

#### PROSPECTIVE PLANTINGS HIGHLIGHTS

Corn plantings are expected to total  $82.7\,$  million acres, 6 percent more than last year and up 2 percent from that indicated by the January 1 intentions. CORN:

Sorghum acreage intentions of nearly  $17.9\,$  million acres are 2 percent below the  $1975\,$  acreage, in contrast to the 2 percent increase expected as of January 1. SORGHUM:

FEED GRAIN ACREAGE (CORN, SORGHUM, OATS AND BARLEY) IS EXPECTED TO TOTAL 126.6 MILLION ACRES, UP NEARLY 3 PERCENT FROM THE 123.1 MILLION ACRES PLANTED LAST YEAR. FEED GRAIN:

DURUM WHEAT PLANTINGS ARE EXPECTED TO TOTAL 4.7 MILLION ACRES, DOWN 2 PERCENT FROM LAST YEAR AND BELOW THE 8 PERCENT INCREASE EXPECTED JANUARY 1. DURUM WHEAT:

OTHER SPRING WHEAT:

Other spring wheat prospective planted acreage of  $16.4\,\mathrm{MILLION}$  acres is up 17 percent from 1975, an increase over three times as large as expected at the time of the January 1 survey.

FOOD GRAIN ACREAGE (WHEAT, RICE AND RYE) IS EXPECTED TO INCREASE 3 PERCENT TO 83.8 MILLION ACRES. (INCLUDES THE DECEMBER 1 ESTIMATE OF 57.2 MILLION ACRES OF WINTER WHEAT AND 3.0 MILLION ACRES OF RYE SEEDED). FOOD GRAIN:

Soybean acreage is expected to total 49.3 million acres, down 10 percent from 1975 and a larger decline than the 7 percent decrease growers reported January 1. SOYBEAN:

#### WEEKLY SUMMARY

#### FOR WEEK ENDED MAY 6, 1976

#### WHEAT MOSTLY HIGHER - FEED GRAINS MIXED

Wheat and corn markets turned generally higher across the Nation during the week ended May 6. Russian buying of additional U.S. corn and wheat coupled with light frost damage to growing wheat and newly emerged row crops in the Midwest worked to firm markets. Oats, barley and grain sorghum moved mixed in spite of light offerings as demand held at low levels. Soybeans showed sharp advances as oil and meal values improved to create a positive crush margin and farm selling was light due to farmers busy schedule of planting corn and preparing land for soybean planting.

Kansas City hard winter wheat finished on a stronger tone after being weaker during the period. Freeze damage was reported in some sections of the hard winter wheat area but is generally believed to be light. Hard winter ordinary protein finished up 2 cents at \$3.48 but 13 percent protein closed unchanged at \$3.81 per bushel. Chicago soft red winter wheat moved up 2 cents at \$3.20 with stocks declining as receipts were confined to truck loads and outbound shipments were fairly heavy. Toledo soft white wheat moved up 2 cents at \$3.02 per bushel.

Portland soft white wheat fell 10 cents at \$3.49 per bushel as excellent new crop prospects weighed on the market. Hard winter ordinary protein closed steady at \$3.59 while dark northern spring 14 percent protein traded 10 cents higher at \$4.62 reflecting the scarcity of protein wheats.

Minneapolis dark northern spring wheat moved sharply higher with ordinary protein up 15 cents at \$3.46 and 14 percent protein 10 cents higher at \$4.18 to \$4.20 per bushel. Medium milling quality hard amber durum wheat advanced 10 to 15 cents at \$4.25 to \$4.40 per bushel with receipts short of the slow demand. Rye traded 5 cents higher at \$2.95 per bushel.

Yellow corn markets responded to Russian buying of old crop and new crop U.S. corn and to good demand from processors and feeders the past few weeks. Chicago No. 2 yellow corn traded traded 6 cents higher at \$2.74 to \$2.78 but Kansas City No. 2 white corn held unchanged at \$2.99 in a dull market.

OATS AND BARIFY:

Demand for oats slackened and in spite of light offerings Chicago heavy oats fell 1 cent at \$1.50 per bushel. Minneapolis best malting barley sold steady to up 10 cents at \$3.10 to \$3.35 per bushel with usage expanding seasonally. Feed grade barley steady to up 5 cents at \$2.40 to \$2.45 Minneapolis and unchanged to 2 cents lower at \$2.64 to \$2.65 at Los Angeles.

SORGHUM AND OILSEDS:

Sorghum traded 5 cents lower at \$4.31 per hundred pounds at Kansas City as export demand switched to corn but Texas High Plains market went up 2 to 3 cents at \$4.45 to \$4.50. Chicago yellow soybeans turned 13 cents higher at \$4.84 with planting intentions down and good disappeance of beans due to good crushings and export of beans and meal. Illinois crusher plant prices rose 10 to 13 cents at \$4.86 to \$4.92 per bushel. Minneapolis flaxseed went up 10 cents at \$6.50 per bushel with light farm selling.

#### AGRICULTURAL HIGHLIGHTS, APRIL 26-May 26

HIGHLIGHTS:

FOR THE WEEK OF APRIL 26- May 2 THE STATISTICAL REPORTING SERVICE SAID UNSEASONABLY COOL WEATHER WITH TEMPERATURES PLUNGING AS MUCH AS 12 DEGREES BELOW NORMAL SLOWED CROP DEVELOPMENT AND GRASSLAND GROWTH THROUGHOUT MOST OF THE NATION. DRY WEATHER HAMPERED PLANTING ACTIVITIES ESPECIALLY ALONG ATLANTIC COAST UNTIL WEEKEND RAINS ENDED NEAR DROUGHT CONDITIONS AND PROVIDED TOPSOIL MOSITURE FOR GERMINATION. SMALL GRAIN PROSPECTS IMPROVED IN IMPORTANT CENTRAL PLAINS STATES. SPRING PLANTING REMAINED FAR AHEAD OF NORMAL. CLEAR WEATHER PREVAILED IN NORTH CENTRAL STATES.

SPRING OATS AND WHEAT PLANTING FAR AHEAD OF PREVIOUS YEARS. PLANTING OF SPRING WHEAT 66 PERCENT COMPLETE COMPARED WITH 4 PERCENT IN 1975 AND 39 PERCENT AVERAGE. PREVIOUS MILD WEATHER PERMITTED AN EARLIER START BUT ALMOST 20 PERCENT OF THE CROP WAS PLANTED LAST WEEK ALONE.

Frost in Central Plains caused no damage. Precipitation helped winter wheat crop in Southern Great Plains for second consecutive week. In Kansas cool damp weather encouraged wheat growth 80 percent of the crop jointed compared with 60 percent in 1975 and 75 percent normal. Meanwhile 15 percent of crop headed compared with none last year and 10 percent average. Greenbugs and mites appeared throughout state and crop disease was evident in Central areas. In Oklahoma 72 percent of winter wheat crop headed 20 percent in 1975 and 53 percent average. Some fields approached dough stage. Weeds excessive in some thin stands. In Texas first fields were harvested in Southern States.

CORN:

NATIONWIDE 32 PERCENT OF CORN CROP WAS PLANTED
PUTTING IT TWO AND A HALF TIMES AHEAD OF LAST YEAR
WHEN ONLY 13 PERCENT OF CROP WAS PLANTED. NORMALLY ABOUT 18 PERCENT OF CROP IS
PLANTED BY THIS TIME. PLANTING IN EVERY MAJOR STATE WELL AHEAD OF LAST YEAR
AND ONLY IOWA FELL BEHIND AVERAGE BECAUSE COOL TEMPERATURES AND WET SOILS SLOWED
PLANTING ACTIVITIES. IN EAST NORTH CENTRAL STATES PLANTING 31 PERCENT COMPLETE
5 PERCENT IN 1975 AND 9 PERCENT AVERAGE. THE INDIANA CORN CROP SUFFERED SOME
FREEZE DAMAGE. WEST NORTH CENTRAL STATES 18 PERCENT COMPLETE 5 PERCENT LAST YEAR
AND 13 PERCENT AVERAGE. OTHER AREAS OF UNITED STATES RANGED FROM 50 PERCENT TO
90 PERCENT COMPLETE AND ONLY FLORIDA CORN CROP REACHED 100 PERCENT PLANTED.

OTHER CROPS:

Sorghum planting underway in Kansas, Oklahoma, New Mexico and California. In Arkansas planting 69 percent complete and in Missouri 12 percent finished. In Both states this was double last year's rate. In Texas some early stands headed out in lower Rio Grande Valley.

Soybean planting started and advanced to 5 percent complete in Ohio same as Last year and average. In South Carolina planting 6 percent complete last and average under 5 percent.

PASTURES AND LIVESTOCK:

PASTURE AND RANGE GROWTH SLOWED BY SUBNORMAL

TEMPERATURES AND IN SOUTHERN ATLANTIC COAST STATES

DRY SOILS CAUSED POOR GRAZING CONDITIONS BUT RECENT RAINS IMPROVED PASTURES. IN

CALIFORNIA DRY WEATHER KEPT GRASS GROWTH SHORT. HAY CONDITION WAS FAIR TO GOOD.

FIRST CUTTINGS IN PROGRESS IN SOUTHERN HALF OF UNITED STATES. ALFALFA WEEVILS

SPRAYED IN MARYLAND AND IOWA. CATTLE IN GOOD CONDITION EXCEPT IN SOME EXTREME
NORTHERN AREAS WHERE SUDDEN COLD WEATHER PUT STRESS ON LIVESTOCK AND CAUSED ABNORMALLY

HIGH CALF AND LAMB LOSSES.

#### \*\*\* NOTICE \*\*\*

GRAIN MARKET NEWS WILL BE PUBLISHED ON THURSDAY MAY 20, 1976.

No "Outstanding Export Sales" will be issued due to early publication.

#### WEEKLY SUMMARY

#### FOR WEEK ENDED MAY 13, 1976

#### WHEAT AND FEED GRAIN MARKETS STRONGER

#### HIGHLIGHTS:

Wheat and feed grain traded sharply higher across the Nation during the week ended May 13.

A pick up in export demand coupled with expanding domestic usage gave strength to all wheat and feed grain markets after a period of dullness in trade during the past few weeks. Reports of frost damage and dry spots in the Midwest contributed to the stronger market tone. Good domestic and export soybean meal movement supported cash soybean meal advances in spite of easier soybean oil prices during the period. Light farm selling kept users reaching for supplies.

#### WHEAT:

Kansas City hard winter wheat prices moved up on expanded flour mill buying and exporter demand. winter ordinary protein wheat climbed 15 cents at \$3.63 while 13 percent protein advanced 14 cents at \$3.95 per bushel. Fair export sales of soft red winter wheat raised Chicago soft red winter wheat values 20 cents at \$3.40 per bushel. Toledo soft white wheat went up 20 cents at \$3.22 and Portland soft white wheat rose 15 cents at \$3.64, hard winter ordinary protein up 18 cents at \$3.77 and 14 percent protein dark northern spring jumped 29 cents at \$4.91 per bushel.

Minneapolis spring wheat gained 16 to 23 cents with ordinary protein up 22 cents at \$3.68 and 14 percent protein 17 to 18 cents higher at \$4.35 to \$4.38 per bushel. Medium milling quality hard amber durum found little buying interest and dropped 5 cents at \$4.20 to \$4.35 per bushel in spite of light arrivals. Rye held steady in light trade at \$2.95 per bushel.

#### CORN:

Exporters bought corn steadily. Domestic feeding and processing took increasing amounts of corn supplemented by soybean meal forcing prices upward all week. Chicago No. 1 yellow corn closed 10 to 14 cents higher at \$2.88 per bushel in box and hopper cars. Stronger corn values supported advances in barley and sorghum markets but failed to help oats markets very much. White corn trade at Kansas City was dull with movement direct to processors at improved prices. Kansas City market held at \$2.99 while Atchison truck bid went up 10 cents at \$2.90 per bushel.

OATS AND BARLEY: Slow usage of oats limited price advance to 3 cents at \$1.53 Chicago and Minneapolis price moved 2 to 3 cents higher at \$1.73 to \$1.75 per bushel. Minneapolis best malting barley held at \$3.10 to \$3.35 with a strong undertone while feed barley advanced 15 to 20 cents at \$2.60 per bushel with some easing of demand at the close.

#### SORGHUM AND OILSEEDS:

Sorghum trade expanded as corn values ran up and feeders switched to lower cost rations. Kansas City sorghum advanced 17 cents at \$4.48 with local feed mixer giving strong support and the export demand improved at the close. Texas High Plains sorghum advanced 2 to 5 cents at \$4.47 to \$4.55 per hundred pounds as corn supplies moved at higher prices.

Chicago No. 1 yellow soybeans went up 23 cents at \$5.12 with Illinois crusher plant prices 25 to 26 cents higher at \$5.12 to \$5.17 per bushel. Crush margins supported cash soybean markets and a good domestic feed and export demand kept heavy crush offerings cleaned up. Minneapolis flaxseed gained 10 cents at \$6.60 with light offerings and good crusher demand.

GRAINS: Closing prices, basic contracts No. 2 for future delivery

#### WEFKLY SUMMARY

#### FOR WEEK ENDED MAY 20, 1976

#### SOYBEANS STRONG - WHEAT AND FEED GRAINS WEAKEN

#### HIGHLIGHTS:

Soybean markets closed the period sharply higher across the Nation during the week ended May 19. Good export interest in soybeans and soybean meal with good domestic feeder usage of meal kept soybeans moving higher on all but one day of the period. Farmers would like to switch some unplanted corn acreage to soybeans but in most cases broadleaf weed control has been incorporated into the soil and would kill soybeans. Wheat declined sharply under pressure of expanding hard red winter wheat harvest in Texas and nearness of soft red and soft white wheat harvest in the Midwest. Slowed export business added pressure on the downside. Feed grains showed seasonal weakness as pastures improved and feeders resisted higher cost rations. Export interest remains fairly good but does not show the urgency for corn, sorghum and barley of the past few days.

WHEAT:

Nearby harvest pressure coupled with slow flour mill grind and easing export demand dropped wheat values sharply. Kansas City hard winter ordinary protein fell 7 cents at \$3.56 with 13 percent protein down 8 cents at \$3.87 per bushel. Chicago soft red winter wheat went down 11 cents at \$3.29 and Toledo soft white wheat declined 10 cents at \$3.12 per bushel.

Portland soft white wheat closed 12 cents lower at \$3.52 with hard winter ordinary protein down 9 cents at \$3.68 and 14 percent protein dark northern spring 22 cents lower at \$4.69 per bushel.

Minneapolis dark northern spring wheat fell 12 to 14 cents with ordinary protein down 12 cents at \$3.56 and 14 percent protein 12 to 14 cents lower at \$4.23 to \$4.24 per bushel. Medium milling quality hard amber durum traded unchanged to 5 cents lower at \$4.20 to \$4.30 and rye held steady at \$2.95 per bushel.

CORN: Corn markets eased under pressure of expanded country selling, a slightly easier export demand and improving new crop prospects as rains fell over dry areas and planting neared completion. Chicago No. 2 yellow corn finished 4 to 6 cents lower at \$2.82 to \$2.84 per bushel delivered in box and hopper cars. Kansas City white corn held at \$2.99 in dull trade.

#### OATS AND BARLEY:

Demand for oats and barley fell off a little. Chicago heavy oats moved 3 cents lower at \$1.50 per bushel. Minneapolis best malting barley held unchanged at \$3.10 to \$3.35 with feed grade barley down 10 cents at \$2.50 per bushel.

Sorghum closed mixed as California SORGHUM AND OILSEEDS: feeders used sorghum as the discount under corn favored sorghum but slowed export interest eased values at Kansas City. Kansas City sorghum closed 2 cents lower at \$4.46 per hundred pounds. Texas High Plains market rose 3 cents at \$4.50-4.52.

Chicago No. 1 yellow soybeans closed 17 cents higher at \$5.29 with Illinois crusher plant prices 12 to 13 cents higher at \$5.25 to \$5.29 per bushel. Minneapolis flaxseed finished the period 15 cents higher at \$6.75 per bushel as crushers filled recent export linseed meal orders.

GRAINS: Closing prices, basic contracts No. 2 for future delivery

### WORLD WEATHER SUMMARY MAY 17, 1976

HIGHLIGHTS:

The prolonged Winter - Spring drought caused spotty germination, slow and uneven crop growth in Northern Europe from the United Kingdom to Poland. Crops benefitted, especially winter grains, by generous rainfall in most Mediterranean countries. European U.S.S.R. continued to receive good spring rains enhancing yield prospects of surviving winter grains and a uniform start of Spring-sown crops; rains not up to par, however, in North Causasus, Volga, and Urals Regions. Mostly light precipitation in the new lands favored soil preparation and planting. Weather aided timely sowing of crops on Canadian prairies where moisture conditions reasonably good most of Manitoba and Saskatchewan but relatively dry in Alberta. Timely rains encouraged uniform germination and growth of spring plantings in Northeast China..rainfall sparse in Hopeh Province, erratic but mostly adequate rest of North China Fall seeding got underway in the Southern Hemisphere with mostly good soil moisture conditions.

WEATHER:

Drought intensified in much of Northern Europe due to below normal precipitation in April and early May. Low lying countries in the North Sea Region received as little as 20 percent of normal precipitation in April and much below normal for the December-April period. Mid-May rains eased dry conditions in Poland, Czechoslovakia, Austria, and Switzerland.

The U.S.S.R. experienced wetter than usual April weather in much of the European sector although rainfall continued to lag below normal in parts of the Volga, Urals, and North Caucasus Regions. It was considerably drier in most of Kazakhstan and West Siberia. Temperatures were close to

(CONTINUED ON FOLLOWING PAGE)

#### WORLD WEATHER SUMMARY

May 17, 1976

(CONTINUED FROM PREVIOUS PAGE)

WEATHER: (CONTINUED)

seasonal but tending to be a little above normal. The same pattern has continued to mid-May except for increased shower activity in the North Caucasus and Volga Regions.

In China (PRC) April precipitation was above normal in the Northeast, below normal in the North portion of the North China Plain, and about normal elsewhere. Good rains also fell in the Northeast in the first half of May, April and early May temperatures were a little on the cool side. The gradual South to North advance of the rainy season is about on schedule.

India had significant amounts of rain in parts of the South where it is expected. Areas of above normal yet light rainfalls were extensive; however, these were mostly areas accustomed to receiving even lesser amounts. The country was seasonably hot.

For the period February 1, to May 15, 1976, London, Brussels, Amsterdam, Copenhagen, Berlin, and Warsaw each received less than 2 inches of precipitation. About one-third their usual amount. Warsaw had little more than one-half inch for all of February, March and April. A heavy May shower was responsible for the rest.

#### WEEKLY SUMMARY

#### FOR WEEK ENDED MAY 27, 1976

#### WHEAT AND FEED GRAIN MARKETS STRONG

#### HIGHLIGHTS:

Wheat and feed grain markets turned strong across the Nation during the

week ended May 27. Weather influenced markets as cool wet conditions slowed winter wheat and sorghum harvest while dry areas slowed spring wheat, corn, and soybean crop progress. Hail storms cut wide swaths in wheat fields of Texas and Oklahoma at mid period. Traders speculated that Russia would do additional grain business in world markets including U.S. origin grain.

#### WHEAT:

Hard winter wheat responded to better export interest and delayed

new crop harvest. Kansas City hard winter wheat market climbed 8 to 9 cents higher with ordinary protein at \$3.64 and 13 percent protein at \$3.96 per bushel. Chicago soft red winter wheat went up 10 cents at \$3.39 with additional strength coming from reports of frost damaged wheat in areas not detected before this point.

Toledo soft white wheat went up 15 cents at \$3.27 and Portland soft white wheat rose 5 cents at \$3.57. Hard winter ordinary protein closed 8 cents higher at \$3.76 and 14 percent protein dark northern spring rose 12 cents at \$4.81 at Portland.

Minneapolis dark northern spring wheat finished up 9 to 14 cents with ordinary protein at \$3.68 and 14 percent protein at \$4.33 per bushel. Medium milling quality hard amber durum moved unchanged to 5 cents lower at \$4.20 to \$4.25 but No. 1 rye went up 5 cents at \$3.00 per bushel.

#### CORN:

Corn markets borrowed strength from soybeans and wheat and traders

found encouragement in Russian negotiations which might involve additional grain sales from the U.S. Chicago No. 2 yellow corn went up 9 to 12 cents at \$2.91 to \$2.96 per bushel. Kansas City white corn price rose 6 cents at \$3.05 with processor interest the main strength and light farmer selling gave support.

#### OATS AND BARLEY:

Chicago heavy oats moved up 14 cents at \$1.64 per bushel with fair

export sale activity early in the week. Minneapolis best malting barley finished strong and price steady to up 5 cents at \$3.15 to \$3.35 per bushel but feed grade barley held unchanged at \$2.50 per bushel. Portland western barley went up 2 cents at \$2.53 per bushel.

#### SORGHUM AND OILSEEDS:

Kansas City sorghum went up 15 cents at \$4.61 per hundred pounds

with the market supported by export intere t and delayed new crop harvest. Texas High Plains sorghum closed 10 cents higher at \$4.60 to \$4.62.

Soybean markets were supported by advancing soybean meal and oil with strong export demand adding strength. Chicago No. 1 yellow soybeans went 40 cents higher at \$5.60 with Illinois crusher point prices 39 to 40 cents higher at \$5.64 to \$5.69 per bushel. Minneapolis flaxseed ranged 15 cents higher at \$6.90 per bushel with strong crusher demand.

#### WEFKLY SUMMARY

#### FOR WEEK ENDED JUNE 3, 1976

#### WHEAT AND MOST FEED GRAIN MARKETS STRONG

#### HIGHLIGHTS:

Wheat traded shaprly higher

in the face of expanding harvest in Texas and Oklahoma during the week ended June 3. Farmers sold small amounts of wheat as harvest moved into Oklahoma but continues to be delayed by cool, damp weather over much of the hard winter wheat area. The dry weather in spring wheat areas was only partially alleviated by rain early in the period. Export demand continues fairly good.

Feed grain markets showed strength in most areas with corn leading at the close in spite of increased farm selling. Soybeans moved erratically but generally well supported by soybean meal interest in domestic and export channels. Soybean oil closed lower. Grain sorghum eased a little at Kansas City due to reduced export interest but in feeding areas of the southwest and in California moved firm to stronger.

#### WHEAT:

Hard winter wheat opened the period on a weak tone

but responded to good export support and expanded flour sales to close 8 cents higher. Kansas City hard winter ordinary protein wheat moved up 8 cents at \$3.72 with 13 percent protein at \$4.04 per bushel. Chicago soft red winter wheat closed up 8 cents at \$3.47 with light truck receipts supplying the only arrivals. Weather delayed soft red winter wheat harvest adding strength to the cash market. Toledo soft white wheat traded up 8 cents at \$3.35 per bushel.

Portland soft white wheat traded 3 cents higher at \$3.59 with hard red winter ordinary protein 8 cents higher at \$3.84 and 14 percent protein dark northern spring 3 cents higher at \$4.84 per bushel.

Minneapolis dark northern spring wheat turned 10 cents higher as drought was only partially alleviated by light rain during the 14 percent protein at \$4.41 per bushel. Medium milling quality hard amber durum sold up 15 cents at \$4.30 to \$4.35 per bushel. Rye closed unchanged at \$3.00 per bushel.

#### CORN:

Yellow corn markets moved higher in spite of

improved crop prospects and expanded farm selling. Domestic feeder demand and export interest kept offerings cleaned up. Chicago No. 2 yellow corn closed up 1 to 3 cents at \$2.94 to \$2.97 per bushel. White corn processors moved bids up sharply during the week to encourage new crop planting in an effort to maintain white corn acreage as yellow corn price neared white corn value or exceeded white corn value at some points. Kansas City No. 2 white corn advanced 10 cents at \$3.15 per bushel.

#### OATS AND BARLEY:

Chicago heavy oats went 3 cents higher at \$1.67

with strong futures market support. Minneapolis best malting barley sold up 5 cents at \$3.20 to \$3.40 but feed grade barley held unchanged at \$2.50 per bushel.

#### SORGHUM AND OILSEEDS:

Sorghum closed mixed with the Kansas City

and Gulf export market easier but western feed areas moved higher. Kansas City sorghum finished down 5 cents at \$4.56 while Texas High Plains sorghum went steady to up 3 cents at \$4.60 to \$4.65 per hundred pounds.

Chicago No. 1 yellow soybeans traded up 2 cents at \$5.71 with good support from soybean meal but lower soybean oil markets limited the advance. Illinois crusher plant prices went up 1 to 3 cents at \$5.65 to \$5.72 per bushel. Minneapolis flaxseed closed up 30 cents at \$7.10 per bushel.

Marketing years for wheat, barley, Rye, and oats are June 1, to May 31;
For corn, sorghum, soybean meal and cottonseed meal October 1 to September 30; and soybeans September 1 to August 31.

#### WEFKLY SUMMARY

#### FOR WEEK ENDED JUNE 10, 1976

#### GRAIN PRICES ADVANCE

#### HIGHLIGHTS:

Grains traded higher across the Nation

during the week ended June 10. A strong soybean futures market and adverse weather conditions along with light farm selling and reduced planting intentions continue to be the influencing factors in the spiraling rise of prices.

#### WHEAT:

Hard winter winter prices advanced daily

with renewed interest by mills reflecting dry weather conditions in the upper Midwest. No. 1 hard winter wheat at Kansas City advanced sharply with ordinary up 18 cents at \$3.90 and 13 percent protein gaining 26 cents at \$4.30 per bushel. Winter wheat harvest is in full swing in Oklahoma and is expected to move into southern Kansas during the week. No. 2 soft red winter wheat in Chicago moved 15 cents higher at \$3.62 per bushel in spite of the slow export demand and new crop supplies nearby. No. 2 soft white wheat was up 16 cents at \$3.51 per bushel.

No. 1 soft white wheat at Portland advanced 12 cents at \$3.71 while No. 1 hard winter wheat was up 16 cents at \$4.00 per bushel with tight farm holding helping to bolster the cash market.

No. 1 Dark Northern Spring wheat ordinary protein in Minneapolis gained 23 cents at \$3.99 and 14 percent protein advanced 17 cents at \$4.58 per bushel with lack of moisture in portions of the upper Midwest and the strong demand for proteins helping to keep prices stronger.

#### CORN:

Yellow corn markets advanced reflecting the

dry conditions coupled with rather slow producers selling. Processors and exporters competed for supplies in order to meet prior commitments. No. 2 yellow corn in Chicago gained 12 to 13 cents at \$3.07 to \$3.09 and St. Louis up 9 to 11 cents at \$3.01 per bushel. No. 2 white corn in Kansas City was 15 cents higher at \$3.30 per bushel with processors absorbing the light offerings.

#### OATS AND BARLEY:

No. 2 heavy oats in Chicago gained 19 cents

at \$1.86 and in Minneapolis 21 cents higher at \$2.01 to \$2.03 per bushel with the dry weather conditions tending to strengthen the market and harvest only a few weeks away. No. 3 malting barley in Minneapolis advanced 50 cents at \$3.70 to \$3.90 per bushel with strong maltster demand.

#### SORGHUM AND OILSEEDS:

No. 2 yellow sorghum in Kansas City was up

24 cents at \$4.80 per cwt with exporters seeking additional supplies in order to fill commitments.

No. 1 yellow soybeans in Chicago advanced 70 cents at \$6.41 per bushel with dry weather in Europe and parts of the United States coupled with extremely high soybean meal prices and competition from Brazil. Illinois crusher plant prices were up 67 to 69 cents at \$6.34 to \$6.39 per bushel. No. 1 flaxseed in Minneapolis gained 15 cents at \$7.25 per bushel with strong crusher demand.

Marketing years for wheat, barley, Rye, and oats are June 1, to May 31; for corn, sorghum, soybean meal and cottonseed meal October 1 to September 30; and soybeans September 1 to August 31.

\*

### WEEKLY SUMMARY

### FOR WEEK ENDED JUNE 17

### GRAIN PRICES MOSTLY LOWER

### HIGHLIGHTS:

Grains traded mostly lower across the Nation's market

during the week ended June 17. Early in the period soybeans pulled all other grains to a higher price level with rumors of Red China in the market for additional supplies along with lack of moisture in the upper Midwest. At the close of the week, markets turned around and moved sharply lower with confirmation of sales to Red China by Brazil. Winter wheat harvest in the High Plains expanded into Kansas with most areas reporting good progress.

### WHEAT:

Number one hard red winter wheat, ordinary protein in

Kansas City declined 22 cents at \$3.18 and 13 percent off 20 cents at \$4.10 per bushel with harvest expanding northward into Kansas during the week. No. 2 soft red winter wheat in Chicago lost 25 cents at \$3.37 while St. Louis was down 32 cents at \$3.20 per bushel with increased offerings and reduced export demand. No. 2 soft white wheat in Portland off 24 cents at \$3.47 per bushel with most export interest in new crop positions.

No. 1 dark northern spring wheat, ordinary protein in Minneapolis declined 27 cents at \$3.72 and 14 percent off 28 cents at \$4.30 per bushel. Rain fell over much of the drought stricken area of the Upper Midwest which was light but sufficient to halt the crop deterioration. No. 2 rye in Minneapolis quoted at \$3.40 per bushel with limited amounts being offered reflecting tight farm holding and dim crop prospects.

### CORN:

Yellow corn markets moved generally lower with

increased farm selling along with feed manufacturers buying conservatively reflecting the downturn in hog prices. No. 2 yellow corn in Chicago down 20 to 25 cents at \$2.82 to \$2.89 and St. Louis off 21 to 22 cents at \$2.79 to \$2.80 per bushel. Barge movement down the Mississippi continues to be hampered at lock 27, near St. Louis, which is closed to traffic during the day.

### OATS AND BARLEY:

No. 2 heavy oats in Chicago lost 14 cents at \$1.72 while

Minneapolis was down 5 to 6 cents at \$1.95 to \$1.98 per bushel with demand spotty and confined to fill nearby needs. Oats moved higher at midweek reflecting the drought over much of the Midwest but declined with news of scattered rain. No. 3 malting barley in Minneapolis declined 25 to 30 cents at \$3.40 to \$3.65 per bushel, with rain in Dakotas coupled with increased country selling, the market weakened.

### SORGHUM AND OILSEEDS:

No. 2 yellow sorghum off 20 cents at \$4.60 per cwt

in Kansas City with only domestic users interested in nearby supplies. Texas High Plains prices quoted at \$4.65 per cwt which is 10 to 15 cents under a week ago. No. 1 yellow soybeans in Chicago lost 37 cents at \$6.04 and Minneapolis down 32 cents at \$5.90 to \$5.96 while Illinois processor off 35 to 36 cents at \$5.98 to \$6.04 per bushel reflecting the reduced export demand along with the building of excess stocks at crushing points. Late in the period, traders reported Peoples Republic of China bought 100,000 tonnes of soybeans from Brazil. Chicago futures dropped the limit as many expected the Peoples Republic of China would take the U.S. soybeans.

GRAINS: Closing prices, basic contracts No. 2 for future delivery

#### WEEKLY SUMMARY

#### FOR WEEK ENDED JUNE 24

#### SOYBEANS ADVANCE SHARPLY

#### HIGHLIGHTS:

Grains traded higher across the Nation's market during

the week ended June 24. Soybean futures fluctuated sharply with cash markets following. Traders report markets very thin, unsettled and easily moved on rumors. Winter wheat harvest expanded in Kansas early in the week but was halted at midweek due to rain.

#### WHEAT:

Winter wheat markets
advanced during the wee

advanced during the week with improved export demand for low protein while mills were not aggressive buyers for the higher proteins. No. 1 hard red winter wheat ordinary protein in Kansas City advanced 8 cents at \$3.76 and Omaha up 8 to 10 cents at \$3.66 to \$3.70 per bushel with harvest expanding and farmers holding tight to new crop supplies. Traders report scattered selling of new crop soft winter wheat by producers but not in large volume. No. 2 soft red winter wheat in Chicago gained 12 cents at \$3.49 and Toledo 9 cents higher at \$3.39 to \$3.41 per bushel. No. 1 soft white wheat in Portland up 12 cents at \$3.59 per bushel with light offerings for old crop supplies.

No. 1 dark northern spring wheat ordinary protein in Minneapolis advanced 13 cents at \$3.85 and 14 percent gaining 14 cents at \$4.44 per bushel with moderate mill demand for all proteins. No. 1 hard amber durum quoted 5 cents higher to 5 cents lower with little terminal demand and most mills on the sideline. No. 2 rye in Minneapolis was unchanged to 10 cents higher with very strong mill demand for the light offerings.

#### CORN:

Corn market moved higher in most areas with offerings

generally being absorbed locally and rail receipts at terminal points applied on contract. Traders report beneficial rains over much of the corn belt during the week which was very timely as conditions had veen very dry. No. 2 yellow corn in Chicago advanced 7 to 10 cents at \$2.92 to \$2.96 per bushel and St. Louis up 11 cents at \$2.90 to \$2.91 per bushel.

#### OATS AND BARLEY:

Buyer demand for old crop oats remains spotty with

harvest nearby. No. 2 heavy cats in Chicago up 9 cents at \$1.81 and Minneapolis gained 4 to 5 cents at \$1.90 to \$1.94 per bushel with light offerings at terminal points. No. 3 malting barley in Minneapolis held steady to 5 cents higher at \$3.35 to \$3.65 per bushel in an inactive market.

#### SORGHUM:

Number 2 yellow sorghum in Kansas City held steady

at \$4.60 per cwt with light offerings and reduced export demand. Traders report harvesting started in the lower Rio Grande Valley with supplies moving into export channels.

#### OILSEEDS:

Number 2 yellow soybeans in Chicago advanced 42 cents at

\$6.46 and Illinois processor points gained 42 to 45 cents at \$6.42 to \$6.46 per bushel with exporters and crushers competing for the light offerings. Reports of seven straight months of dry weather in Europe increased the probability of further export demand for U.S. soybeans. No. 1 flaxseed in Minneapolis up 30 cents at \$7.55 with light offerings and good crusher demand.

GRAINS: Closing prices, basic contracts No. 2 for future delivery

#### METRIC WEIGHTS, MEASURES AND CONVERSION FACTORS

#### BUSHELS WEIGHTS:

Wheat and soybeans = 60 lbs Corn, sorghum and rye = 56 lbs Barley (grain) = 48 lbs: malt = 34 lbs. Oats = 32 lbs.

#### 1,000 KILOGRAMS (1 METRIC TON )

36.7437 bushels wheat or soybeans 39.3679 bushels corn, sorghum or rye 45.9296 bushels barley 68.8944 bushels oats

#### BUSHELS TO METRIC TONS:

Wheat and soybeans = bushels x .027216 Barley = bushels x .021772 Corn, sorghum, rye = bushels x .025400 Oats = Bushels x .014515

#### **AREA**

1 Acre = .404694 hectares 1 Hectare = 2.4710 acres

#### 1 METRIC TONS EQUALS:

2204.622 lbs. 22.046 hundredweight 10 quintals 1,000 kilograns

#### YIELDS:

Wheat = bushels per acre x 0.6725 =
quintals per hectare

Rye, corn = bushels per acre x 0.6277
= quintals per hectara

Barley = bushels per acre x 0.5380
= quintals per hectare

Oats = bushels per acre x 0.3587
= quintals per hectare

#### AGRICULTURAL SUPPLY AND DEMAND ESTIMATES

THE JUNE 9 CROP REPORT INDICATED 1976 WINTER WHEAT PRODUCTION WAS DOWN 43 MILLION BUSHELS FROM MAY, MAINLY BECAUSE OF FREEZE DAMAGE LAST MONTH. AS A RESULT, ESTIMATES OF THE 1976/77 WHEAT SUPPLY AND CARRYOVER HAVE BEEN LOWERED ACCORDINGLY. FOR SOYBEANS, DOMESTIC AND EXPORT USE CONTINUE TO OUTPACE EARLIER EXPECTATIONS. CONSEQUENTLY THE CARRYOVER THIS AUGUST 31 HAS BEEN REDUCED FROM OUR LAST REPORT BUT IS STILL ABOVE YEAR-EARLIER LEVELS. CORN EXPORTS FOR THE CURRENT MARKETING YEAR CONTINUES STRONG AND EXPORT ESTIMATES HAVE BEEN INCREASED.

Weather continued to adversely affect 1976 wheat prospects as freezes across the Nation's midsection shaded winter wheat prospects again. Production, estimated at 1,416 million bushles, is down 3 percent from the forecast in May to a level 14 percent below last year's record. Seeding of the spring wheat crop was far ahead of normal, but short soil moisture has slowed early plant development in some areas.

Combining the winter wheat estimate with the projected spring wheat crop, based on April Intentions, a total crop of 1,900 to 2,050 million bushels looks most probable at this time. This compares with a record crop of 2.1 billion bushels in 1975. However, with prospects for a larger carryin, total 1976/77 supplies likely will at i.east match last year's 2.5 billion bushels.

EVEN WITH THE REDUCTION IN 1976/77 WHEAT PRODUCTION, PROJECTED UTILIZATION IS LESS THAN THIS YEAR'S ESTIMATED CROP, RESULTING IN THE THIRD CONSECUTIVE YEAR OF BUILDING STOCKS.

THE 50-MILLION BUSHEL INCREASE IN THE CORN EXPORT ESTIMATED IS ATTRIBUTABLE TO SOMEWHAT SMALLER THAN EXPECTED SHIPMENTS FROM COMPETING ORIGINS SUCH AS SOUTH AFRICA AND TO UPWARD ADJUSTMENTS IN ESTIMATES OF CONSUMPTION AND IMPORT REQUIREMENTS IN A NUMBER OF COUNTRIES. THE ESTIMATE OF DOMESTIC FEED USE REMAINED UNCHANGED PENDING THE RELEASE OF THE STOCKS OF GRAINS REPORT ON JUNE 22.

Soybeans Use---Both crush and exports-IN 1975/76 IS EXCEEDING EARLIER EXPECTATIONS. ESTIMATES OF THE SOYBEAN CRUSH AND
EXPORTS HAVE EACH BEEN BOOSTED BY 25 MILLION BUSHELS TO 850 MILLION AND 550 MILLION
BUSHELS, RESPECTIVELY. ENDING STOCKS OF SOYBEANS AS OF AUGUST 31, 1976 ARE THUS
REDUCED FROM THE LAST ESTIMATE BY 50 MILLION BUSHELS TO 230 MILLION BUSHELS.

THE INCREASE IN THE 1975/76 SOYBEAN CRUSH HAS RESULTED IN LARGER SUPPLIES OF SOYBEAN MEAL AND OIL. ALTHOUGH DOMESTIC USE AND EXPORT ESTIMATES HAVE BEEN INCREASED, WE EXPECT SOME FURTHER BUILDUP IN ENDING STOCK FOR BOTH OIL AND MEAL.
